Zetwerk delivers complete transformer solutions through **Unimacts**, powered by **KRYFS' 40-year legacy** in core and tank manufacturing. We combine engineering depth, precision fabrication, and global scale to deliver bankable, high-performance transformers worldwide.

Through **Unimacts** and **KRYFS**, Zetwerk offers end-to-end manufacturing—CRGO core cutting, coil winding, tank fabrication, and testing. Vertically integrated facilities ensure consistent quality, shorter lead times, and compliance with IEC/ANSI/ISO standards.

Our transformers are engineered for efficiency, thermal stability, and long-term reliability. **KRYFS-backed core technology** and Zetwerk's automated processes ensure precision performance and proven durability—every unit built through Unimacts delivers lasting value.

**BUILD YOUR NEXT
TRANSFORMER PROJECT
WITH ZETWERK**

ZETWERK TRANSFORMERS – PRODUCT PORTFOLIO

Zetwerk supplies a complete range of transformers—**Distribution, Power, Pad-Mounted, Dry-Type, Oil-Filled, and Inverter-Duty**—each built on KRYFS-engineered cores and Unimacts' global manufacturing excellence.

DISTRIBUTION TRANSFORMER

Compact, efficient, and durable units with **hermetic or corrugated tank designs**. Built with KRYFS-fabricated cores for **optimized performance, low losses, and long-term reliability**.

© 10 kVA – 5 MVA | Up to 33 KV

POWER TRANSFORMER

Engineered and **type-tested** for reliable grid operations. Built through Unimacts **with KRYFS-manufactured cores and tanks**, ensuring voltage control, minimal losses, and long-term operational stability.

© 15-500 MVA | Up to 765 KV

DRY-TYPE TRANSFORMERS

Fire-safe and maintenance-free, suited for indoor and sensitive-site applications. Produced with **vacuum pressure impregnated (VPI)** windings ensuring high dielectric strength and reduced noise.

© 10 KVA-5 MVA | Up to 33 KV

INVERTER DUTY TRANSFORMER

Designed for **solar and wind farm integration**, with multi-winding, low-loss configurations that enhance **energy efficiency and renewable uptime**.

© 1-18 MVA | 0.6-66 kV

PAD MOUNTED TRANSFORMER

Tamper-proof, oil-filled enclosures designed for safe and compact power distribution. Ideal for **renewable, urban, and commercial installations**, compliant with IS 14786 / IEC 61330 standards.

© Up to 10 MVAA | Up to 33 kV

OIL FILLED TRANSFORMER

High-capacity, ester-oil designs ensuring superior cooling, insulation, and operational life. Type-tested for 50 MVA, 220 kV performance reliability.

© Up to 160 MVA | Up to 220 kV

SWITCHYARD SOLUTIONS

Zetwerk provides a full range of switchyard and protection components through Unimacts and KRYFS: isolators, surge arresters, RIP bushings, CT/PTs, and insulators up to 765 kV—all engineered for endurance, safety, and consistent field reliability.

PROTECTION EQUIPMENT

- © Disconnecter-Isolator (34.5kV-765 kV)
- © Surge/Lightning Arresters (11kV-850 kV)
- © RIP Bushings (up to 420 kV)
- © Porcelain Insulators (34.5 kV-765 kV)

MEASUREMENT SOLUTIONS

- © Outdoor Oil Cooled Instrument Transformers (500 kV)
- © Combined CT/PT Units (36 kV)
- © Indoor Resin Cast CT/PT (36 kV)
- © Precision measurement capabilities

DISTRIBUTION COMPONENTS

- © Pin & Post Insulators (11 kV)
- © Polymer Insulators (34.5 kV)
- © Load ratings: 5 kN to 120 kN
- © Weather-resistant designs

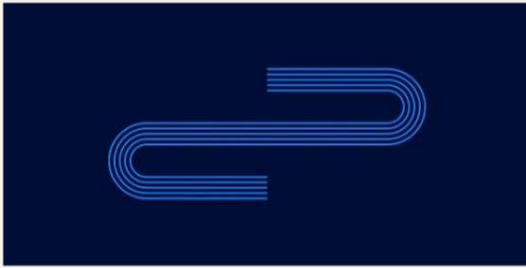

THE ZETWERK MANUFACTURING DIFFERENCE

Zetwerk delivers **bankable speed and reliability** through Unimacts and KRYFS. Integrated design, global sourcing, and strict QA ensure every transformer meets project specs—on time, on budget, and with complete traceability.

MANUFACTURING
FOR INDIA

PROJECT MANAGEMENT

Zetwerk provides dedicated tracking from PO to delivery. Real-time dashboards, QA milestones, and collaborative updates keep every Unimacts/KRYFS project transparent and predictable.

TOOLING DESIGN

Advanced tooling developed through Unimacts and KRYFS enables tighter tolerances and repeatable accuracy. Precision jigs and fixtures improve energy efficiency and production consistency across every transformer.

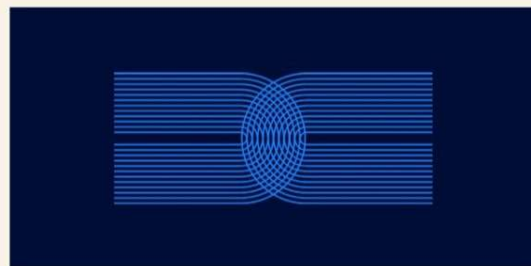

FAIR APPROVAL

Each part undergoes FAIR validation to eliminate deviation. Through Unimacts and KRYFS, Zetwerk ensures mechanical precision, electrical integrity, and zero rework before full-scale production begins.

MANAGED INVENTORY FOR JIT

Through Unimacts, Zetwerk and KRYFS offer global logistics and just-in-time supply. Controlled inventories guarantee on-demand deliveries and optimized project flow even under volatile market conditions.

GET A QUOTE FOR TRANSFORMERS YOU NEED

Zetwerk delivers complete end-to-end transformer manufacturing solutions for industrial, utility, and infrastructure applications. We provide:

- ③ Complete design-to-delivery support for distribution, power, and specialty transformers
- ③ Precision manufacturing for core assemblies, coils, tanks, bushings, and enclosures
- ③ Oil-filled and dry-type transformer production with custom voltage and capacity options
- ③ Global material sourcing to ensure quality, cost stability, and supply chain resilience
- ③ Rigorous quality testing and validation to meet IEEE, ANSI, and IEC standards
- ③ Scalable production capacity for both standard and custom transformer builds
