

Exhibit 62

I. NETLIST DOMESTIC INDUSTRY PRODUCTS

1. Netlist is a corporation organized and existing under the laws of the State of Delaware, with a principal place of business at 111 Academy Way, Suite 100, Irvine, California 92617. It is a leading innovator in advanced memory and storage solutions. Netlist designs and manufactures controller and software-based memory solutions that are sold in the server, high-performance computing, and communications markets.

2. Netlist is the assignee of U.S. Patent Nos. 10,025,731 (“731 Patent”); 10,217,523 (“523 Patent”); 12,373,366 (“366 Patent”); and 12,675,407 (“407 Patent”) (collectively, the “Asserted Patents”).

3. The Asserted Patents are practiced by at least the following Domestic Industry Products identified in the table below. Additional Domestic Industry Products may be identified following discovery in the investigation.

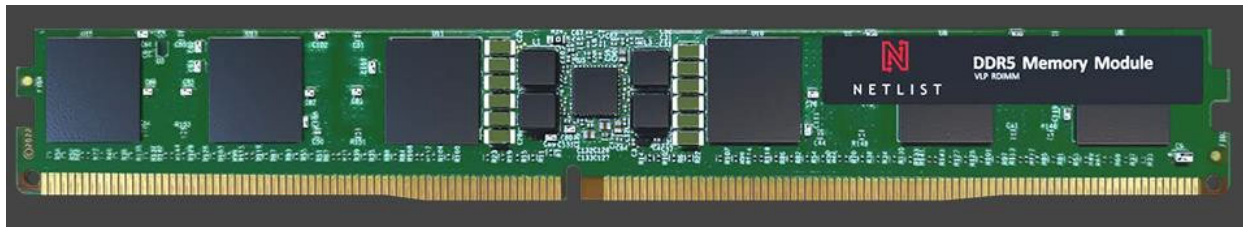

U.S. Patent No.	Existing Domestic Industry Products
U.S. Patent No. 10,025,731	• Netlist DDR5 VLP RDIMMs • Netlist Lightning DDR5 RDIMMs • Netlist DDR5 LP MRDIMMs • SK hynix RDIMMs and MRDIMMs • Samsung RDIMMs and MRDIMMs
U.S. Patent No. 10,217,523	• Netlist DDR5 LP MRDIMMs • SK hynix MRDIMMs • Samsung MRDIMMs
U.S. Patent No. 12,373,366	• Netlist DDR5 VLP RDIMMs • Netlist Lightning DDR5 RDIMMs • Netlist DDR5 LP MRDIMMs • SK hynix RDIMMs and MRDIMMs • Samsung RDIMMs and MRDIMMs
U.S. Patent No. 12,675,407	• Netlist DDR5 VLP RDIMMs • Netlist Lightning DDR5 RDIMMs • Netlist DDR5 LP MRDIMMs

|--|--|
| | <ul style="list-style-type: none">• SK hynix RDIMMs and MRDIMMs• Samsung RDIMMs and MRDIMMs |
|--|--|

4. The Netlist Domestic Industry Products include at least Netlist DDR5 VLP RDIMM, Netlist Lightning DDR5 RDIMM, Netlist DDR5 LP MRDIMM, and SK hynix RDIMM and MRDIMM purchased by Netlist and then offered for sale by Netlist. Each of these products is covered by one or more claims of the Asserted Patents.

A. Netlist DDR5 VLP RDIMM

5. DDR5 is the latest in DRAM technology, and Netlist offers for sale a DDR5 module in a very low profile (“VLP”) RDIMM form. These modules provide the same features and benefits as a standard RDIMM but in a compact form for space-constrained applications. A photograph of a Netlist DDR5 VLP RDIMM is provided below:

6. Netlist has invested and continues to invest in the research and development, design, engineering, testing, qualification, sales, marketing and other activities in Irvine, California regarding the Netlist DDR5 VLP RDIMM. These activities relate to technology protected by the '731, '366, and '407 Patents.

B. Netlist Lightning DDR5 RDIMM

7. Netlist sells DDR5 Overclock RDIMMs, which offer advanced overclocking capabilities to deliver exceptional bandwidth and reduced latency. Netlist purchases standard RDIMMs from SK hynix for the purpose of overclocking, i.e., running the memory modules at a speed higher than originally intended. The overclocking processes are performed by Netlist

engineers at Netlist's facility in Irvine, California. The products that meet overclocking qualifications through Netlist's engineering efforts are then offered for sale by Netlist as Lightning DDR5 RDIMMs. A photograph of a Netlist Lightning DDR5 RDIMM is provided below:

8. Netlist has invested and continues to invest in the research and development, design, engineering, testing, qualification, sales, marketing and other activities in Irvine, California regarding the Netlist Lightning DDR5 RDIMM. These activities relate to technology protected by the '731, '366, and '407 Patents.

C. Netlist DDR5 LP MRDIMM

9. Netlist sells DDR5 LP MRDIMMs, which are DDR5 modules in a low power ("LP") MRDIMM form. These modules provide the same features and benefits as a standard MRDIMM.

10. Netlist has invested and continues to invest in the research and development, design, engineering, testing, qualification, and other activities in Irvine, California regarding the Netlist DDR5 LP MRDIMM. These activities relate to technology protected by the '731, '523, '366, and '407 Patents.

D. SK hynix RDIMM Sold By Netlist

11. Netlist sells RDIMMs originally purchased from SK hynix that it tests to ensure high-level performance and to ensure they meet qualification standards.

12. Netlist has invested and continues to invest in testing, sales, marketing and other activities in Irvine, California with respect to RDIMMs originally purchased from SK hynix and sold by Netlist. These activities relate to technology protected by the '731, '366, and '407 Patents.

E. SK hynix MRDIMM Sold By Netlist

13. Netlist also sells MRDIMMs originally purchased from SK hynix.

14. Netlist has and continues to conduct sales, marketing, and other activities at Netlist's headquarters in Irvine, California with respect to MRDIMMs originally purchased from SK hynix and sold by Netlist. These activities relate to technology protected by the '731, '523, '366, and '407 Patents.

II. U.S. PLANT AND EQUIPMENT

A. Netlist DDR5 VLP RDIMM

15. Facility costs for engineering work related to the Netlist DDR5 VLP RDIMM from January 2021 through June 2026 were calculated by taking Netlist's total facility costs incurred in the U.S. and apportioning costs attributable to engineering work performed for the Netlist DDR5 VLP RDIMM. This percentage was determined by the headcount for engineering between January 2021 through June 2026 and the percentage of total engineering work that was attributable to the Netlist DDR5 VLP RDIMM.

Engineering Facility Investments for Netlist DDR5 VLP RDIMM	2021	2022	2023	2024	2025	H1 2026

16. From January 2021 to June 2026, Netlist paid [REDACTED] in total costs for facilities related to engineering labor for the Netlist DDR5 VLP RDIMM.

17. Facility costs for sales and marketing work related to the Netlist DDR5 VLP RDIMM from January 2021 through June 2026 were calculated by taking Netlist's total facility

costs incurred in the U.S. and apportioning costs attributable to sales and marketing work performed for the Netlist DDR5 VLP RDIMM. This percentage was determined by the headcount for sales and marketing between January 2021 and June 2026 and the percentage of total sales and marketing work that was attributable to the Netlist DDR5 VLP RDIMM.

Sales & Marketing Facility Investments for Netlist DDR5 VLP RDIMM	2021	2022	2023	2024	2025	H1 2026

18. From January 2021 to June 2026, Netlist paid [REDACTED] in total costs for facilities related to sales and marketing labor for the Netlist DDR5 VLP RDIMM.

B. Netlist Lightning DDR5 RDIMM

19. Facility costs for engineering work related to the Netlist Lightning DDR5 RDIMM from January 2021 through June 2026 were calculated by taking Netlist's total facility costs incurred in the U.S. and apportioning costs attributable to engineering work performed for the Lightning DDR5 RDIMM. This percentage was determined by the headcount for engineering between January 2021 through June 2026 and the percentage of total engineering work that was attributable to the Netlist Lightning DDR5 RDIMM.

Engineering Facility Investments for Netlist Lightning DDR5 RDIMM	2021	2022	2023	2024	2025	H1 2026

20. From January 2021 to June 2026, Netlist paid [REDACTED] in total costs for facilities related to engineering labor for the Netlist Lightning DDR5 RDIMM.

21. Facility costs for sales and marketing work related to the Netlist Lightning DDR5 RDIMM from January 2021 through June 2026 were calculated by taking Netlist's total facility costs incurred in the U.S. and apportioning costs attributable to sales and marketing work performed for the Netlist Lightning DDR5 RDIMM. This percentage was determined by the

headcount for sales and marketing between January 2021 and June 2026 and the percentage of total sales and marketing work that was attributable to the Netlist Lightning DDR5 RDIMM.

Sales & Marketing Facility Investments for Netlist Lightning DDR5 RDIMM	2021	2022	2023	2024	2025	H1 2026

22. From January 2021 to June 2026, Netlist paid  in total costs for facilities related to sales and marketing labor for the Netlist Lightning DDR5 RDIMM.

C. Netlist DDR5 LP MRDIMM

23. Facility costs for engineering work related to the Netlist DDR5 LP MRDIMM from January 2021 through June 2026 were calculated by taking Netlist's total facility costs incurred in the U.S. and apportioning costs attributable to engineering work performed for the Netlist DDR5 LP MRDIMM. This percentage was determined by the headcount for engineering between January 2021 through June 2026 and the percentage of total engineering work that was attributable to the Netlist DDR5 LP MRDIMM.

Engineering Facility Investments for Netlist DDR5 LP MRDIMM	2021	2022	2023	2024	2025	H1 2026

24. From January 2021 to June 2026, Netlist paid  in total costs for facilities related to engineering labor for the Netlist DDR5 LP MRDIMM.

25. Facility costs for sales and marketing work related to the Netlist DDR5 LP MRDIMM from January 2021 through June 2026 were calculated by taking Netlist's total facility costs in the U.S. and apportioning costs attributable to sales and marketing work performed for the Netlist DDR5 LP MRDIMM. This percentage was determined by the headcount for sales and marketing between January 2021 and June 2026 and the percentage of total sales and marketing work that was attributable to the Netlist DDR5 LP MRDIMM.

Sales & Marketing Facility Investments for Netlist DDR5 LP MRDIMM	2021	2022	2023	2024	2025	H1 2026

26. From January 2021 to June 2026, Netlist paid [REDACTED] in total costs for facilities related to sales and marketing labor for the Netlist DDR5 LP MRDIMM.

D. SK hynix RDIMM Sold By Netlist

27. Facility costs for engineering work related to the SK hynix DDR5 RDIMMs from January 2021 through June 2026 were calculated by taking Netlist's total facility costs incurred in the U.S. and apportioning costs attributable to engineering work performed for the SK hynix DDR5 RDIMM. This percentage was determined by the headcount for engineering between January 2021 through June 2026 and the percentage of total engineering work that was attributable to the SK hynix DDR5 RDIMM.

Engineering Facility Investments for SK hynix DDR5 RDIMM	2021	2022	2023	2024	2025	H1 2026

28. From January 2021 to June 2026, Netlist paid [REDACTED] in total costs for facilities related to engineering labor for the SK hynix DDR5 RDIMM.

29. Facility costs for sales and marketing work related to the SK hynix DDR5 RDIMM from January 2021 through June 2026 were calculated by taking Netlist's total facility costs in the U.S. and apportioning costs attributable to sales and marketing work performed for the SK hynix DDR5 RDIMM. This percentage was determined by the headcount for sales and marketing between January 2021 and June 2026 and the percentage of total sales and marketing work that was attributable to the SK hynix DDR5 RDIMM.

Sales & Marketing Facility Investments for SK hynix DDR5 RDIMM	2021	2022	2023	2024	2025	H1 2026

30. From January 2021 to June 2026, Netlist paid [REDACTED] in total costs for facilities related to sales and marketing labor for the SK hynix DDR5 RDIMM.

E. SK hynix MRDIMM Sold By Netlist

31. Facility costs for sales and marketing work related to the SK hynix DDR5 MRDIMM from January 2021 through June 2026 were calculated by taking Netlist's total facility costs in the U.S. and apportioning costs attributable to sales and marketing work performed for the SK hynix DDR5 MRDIMM. This percentage was determined by the headcount for sales and marketing between January 2021 and June 2026 and the percentage of total sales and marketing work that was attributable to the SK hynix DDR5 MRDIMM.

Sales & Marketing Facility Investments for SK hynix DDR5 MRDIMM	2021	2022	2023	2024	2025	H1 2026
	[REDACTED]					

32. From January 2021 to June 2026, Netlist paid [REDACTED] in total costs for facilities related to sales and marketing labor for the SK hynix DDR5 MRDIMM.

III. U.S. LABOR AND CAPITAL

A. Netlist DDR5 VLP RDIMM

33. Since 2021, Netlist engineers in Irvine, California have been involved in activities related to developing and improving the Netlist DDR5 VLP RDIMM. This includes time spent researching and developing the product, designing the module and selecting its components, and testing its operation and function.

34. The annual salaries of the engineers who worked on the Netlist DDR5 VLP RDIMM from January 2021 through June 2026 were apportioned by allocating a percentage of the salaries attributable to work performed for the Netlist DDR5 VLP RDIMM. These percentages were determined by reviewing the projects worked on by each engineer in each year.

Engineering Labor Investments for Netlist DDR5 VLP RDIMM	2021	2022	2023	2024	2025	H1 2026

35. From January 2021 to June 2026, Netlist paid a total of [REDACTED] for engineering labor related to the Netlist DDR5 VLP RDIMM.

36. Since 2021, Netlist sales and marketing employees in Irvine, California have been involved in activities related to the Netlist DDR5 VLP RDIMM. This includes time spent surveying and analyzing customer requirements and demand, developing sales and marketing materials, providing technical support on qualification sample modules, and ongoing business development with prospective customers.

37. The annual salaries of the sales and marketing employees who worked on the Netlist DDR5 VLP RDIMM from January 2021 through June 2026 were apportioned by allocating a percentage of the salaries attributable to their work performed for the Netlist DDR5 VLP RDIMM. These percentages were determined by reviewing the projects worked on by each employee in each year.

Sales & Marketing Labor Investments for Netlist DDR5 VLP RDIMM	2021	2022	2023	2024	2025	H1 2026

38. From January 2021 to June 2026, Netlist paid a total of [REDACTED] for sales and marketing labor related to the Netlist DDR5 VLP RDIMM.

B. Netlist Lightning DDR5 RDIMM

39. Since 2021, Netlist engineers in Irvine, California have been involved in activities related to developing and testing the Netlist Lightning DDR5 RDIMM. This includes the engineering involved in overclocking RDIMMs purchased from SK hynix, making the necessary

modifications to ensure high-level performance, and testing the modules to ensure they meet required qualifications.

40. The annual salaries of the engineers who worked on the Netlist Lightning DDR5 RDIMM from January 2021 through June 2026 were apportioned by allocating a percentage of the salaries that were attributable to work performed for the Netlist Lightning DDR5 RDIMM. These percentages were determined by reviewing the projects worked on by each engineer in each year.

Engineering Labor Investments for Netlist Lightning DDR5 RDIMM	2021	2022	2023	2024	2025	H1 2026

41. From January 2021 to June 2026, Netlist paid a total of [REDACTED] for engineering labor related to the Netlist Lightning DDR5 RDIMM.

42. Since 2021, Netlist sales and marketing employees in Irvine, California have been involved in activities related to the Netlist Lightning DDR5 RDIMM. This includes time spent surveying and analyzing customer requirements and demand, developing sales and marketing materials, providing technical support during qualification and after orders are placed, and ongoing business development with prospective customers.

43. The annual salaries of the sales and marketing employees who worked on the Netlist Lightning DDR5 RDIMM from January 2021 through June 2026 were apportioned by allocating a percentage of the salaries that were attributable to their work on the Netlist Lightning DDR5 RDIMM. These percentages were determined by reviewing the projects worked on by each employee in each year.

Sales & Marketing Labor Investments for Netlist Lightning DDR5 RDIMM	2021	2022	2023	2024	2025	H1 2026

44. From January 2021 to June 2026, Netlist paid [REDACTED] for sales and marketing labor related to the Lightning DDR5 RDIMM.

C. Netlist DDR5 LP MRDIMM

45. Since 2025, Netlist engineers in Irvine, California have been involved in activities related to developing and testing the Netlist DDR5 LP MRDIMM. This includes time spent researching and developing the product, designing the module and selecting its components, and testing its operation and function.

46. The annual salaries of the engineers who worked on the Netlist DDR5 LP MRDIMM from January 2021 through June 2026 were apportioned by allocating a percentage of the salaries that were attributable to work performed for the Netlist Lightning DDR5 RDIMM. These percentages were determined by reviewing the projects worked on by each engineer in each year.

Engineering Labor Investments for Netlist DDR5 LP MRDIMM	2021	2022	2023	2024	2025	H1 2026
	[REDACTED]					

47. From January 2021 to June 2026, Netlist paid a total of [REDACTED] for engineering labor related to the Netlist Lightning DDR5 RDIMM.

48. Since 2024, Netlist sales and marketing employees in Irvine, California have been involved in activities related to the Netlist DDR5 LP MRDIMM. This includes time spent surveying and analyzing customer requirements and demand, developing sales and marketing materials, providing technical support during qualification and after orders are placed, and ongoing business development with prospective customers.

49. The annual salaries of the sales and marketing employees who worked on the Netlist DDR5 LP MRDIMM from January 2021 through June 2026 were apportioned by allocating

a percentage of the salaries that were attributable to their work on the Netlist DDR5 LP MRDIMM. These percentages were determined by reviewing the projects worked on by each employee in each year.

Sales & Marketing Labor Investments for Netlist DDR5 LP MRDIMM	2021	2022	2023	2024	2025	H1 2026

50. From January 2021 to June 2026, Netlist paid [REDACTED] for sales and marketing labor related to the Netlist DDR5 LP MRDIMM.

D. SK hynix RDIMM Sold By Netlist

51. Since 2021, Netlist engineers in Irvine, California have been involved in activities related to the qualification of the SK hynix DDR5 RDIMM in the computer systems and servers of Netlist's customers. This includes testing DDR5 RDIMMs purchased from SK hynix to ensure that they pass the requisite performance analysis.

52. The annual salaries of the engineers who worked on the SK hynix DDR5 RDIMM from January 2021 through June 2026 were apportioned by allocating a percentage of the salaries attributable to their work on the SK hynix DDR5 RDIMM. These percentages were determined by reviewing the projects worked on by each engineer in each year.

Engineering Labor Investments for SK hynix DDR5 RDIMM	2021	2022	2023	2024	2025	H1 2026

53. From January 2021 to June 2026, Netlist paid [REDACTED] for engineering labor related to the SK hynix DDR5 RDIMM.

54. Since 2021, Netlist sales and marketing employees in Irvine, California have been involved in activities related to the RDIMMs originally purchased from SK hynix. This includes time spent surveying and analyzing customer requirements and demand, developing sales and

marketing materials, providing technical support during qualification and after orders are placed, and ongoing business development with prospective customers.

55. The annual salaries of the sales and marketing employees who worked on the SK hynix DDR5 RDIMM from January 2021 through June 2026 were apportioned by allocating a percentage of the salaries attributable to their work performed for the SK hynix DDR5 RDIMM. These percentages were determined by reviewing the projects worked on by each employee in each year.

Sales & Marketing Labor Investments for SK hynix DDR5 RDIMM	2021	2022	2023	2024	2025	H1 2026

56. From January 2021 to June 2026, Netlist paid [REDACTED] for sales and marketing labor related to the SK hynix DDR5 RDIMM.

E. SK hynix MRDIMM Sold By Netlist

57. Since 2021, Netlist sales and marketing employees in Irvine, California have been involved in activities related to the SK hynix DDR5 MRDIMM. This includes time spent surveying and analyzing customer requirements and demand, developing sales and marketing materials, providing technical support during qualification and after orders are placed, and ongoing business development with prospective customers.

58. The annual salaries of the sales and marketing employees who worked on the SK hynix DDR5 MRDIMM from January 2021 through June 2026 were apportioned by allocating a percentage of the salaries that were attributable to their work on the product. These percentages were determined by reviewing the projects worked on by each employee in each year.

Sales & Marketing Labor Investments for SK hynix DDR5 MRDIMM	2021	2022	2023	2024	2025	H1 2026

59. From January 2021 to June 2026, Netlist paid a total of [REDACTED] for sales and marketing labor related to the SK hynix DDR5 MRDIMM.

IV. SUMMARY OF TOTAL U.S. INVESTMENT

60. The table below summarizes the facility and labor U.S. investments for (1) engineering and (2) sales and marketing, discussed above, from January 2021 through June 2026. Updated figures may be available following discovery in the investigation.

	Facility Investments for 2021 – June 30, 2026		Labor Investments for 2021 – June 30, 2026	
	Engineering	Sales & Marketing	Engineering	Sales & Marketing
Netlist DDR5 VLP RDIMM	[REDACTED]			
Netlist Lightning DDR5 RDIMM				
Netlist DDR5 LP MRDIMM				
SK hynix RDIMM Sold By Netlist				
SK hynix MRDIMM Sold By Netlist				

61. The table below provides the total facility costs and labor U.S. investments from January 2021 through June 2026.

	Facility Investments for 2021 – June 30, 2026	Labor Investments for 2021 – June 30, 2026	Total
Netlist DDR5 VLP RDIMM	[REDACTED]		
Netlist Lightning DDR5 RDIMM			
Netlist DDR5 LP MRDIMM			
SK hynix RDIMM Sold By Netlist			
SK hynix MRDIMM Sold By Netlist			

62. The table below provides the total U.S. investments on a patent-by-patent basis, as both RDIMMs and MRDIMMs are relevant to the '731, '366, and '407 Patents while only MRDIMMs are relevant to the '523 Patent:

	'731 Patent	'523 Patent	'366 Patent	'407 Patent
Total U.S. Investments
