

Exhibit 77

FY2023 Q2 Earnings

2023. 07. 26 | Investor Relations

Disclaimer

Review of the FY2023 Q2 financial results has not been finalized.
Figures in this earnings release are subject to changes during
the independent auditing process.

All financial information contained in this document is based on consolidated K-IFRS.

This material contains forward-looking statements which can be subject to certain
risks and uncertainties that could cause actual results to differ materially.

Financial Results

Revenue Analysis

DRAM

B/G Mid 30% ↑ QoQ

ASP High Single% ↑ QoQ

FY2023 Q2 Revenue
KRW 7.31T
+44% QoQ / -47% YoY

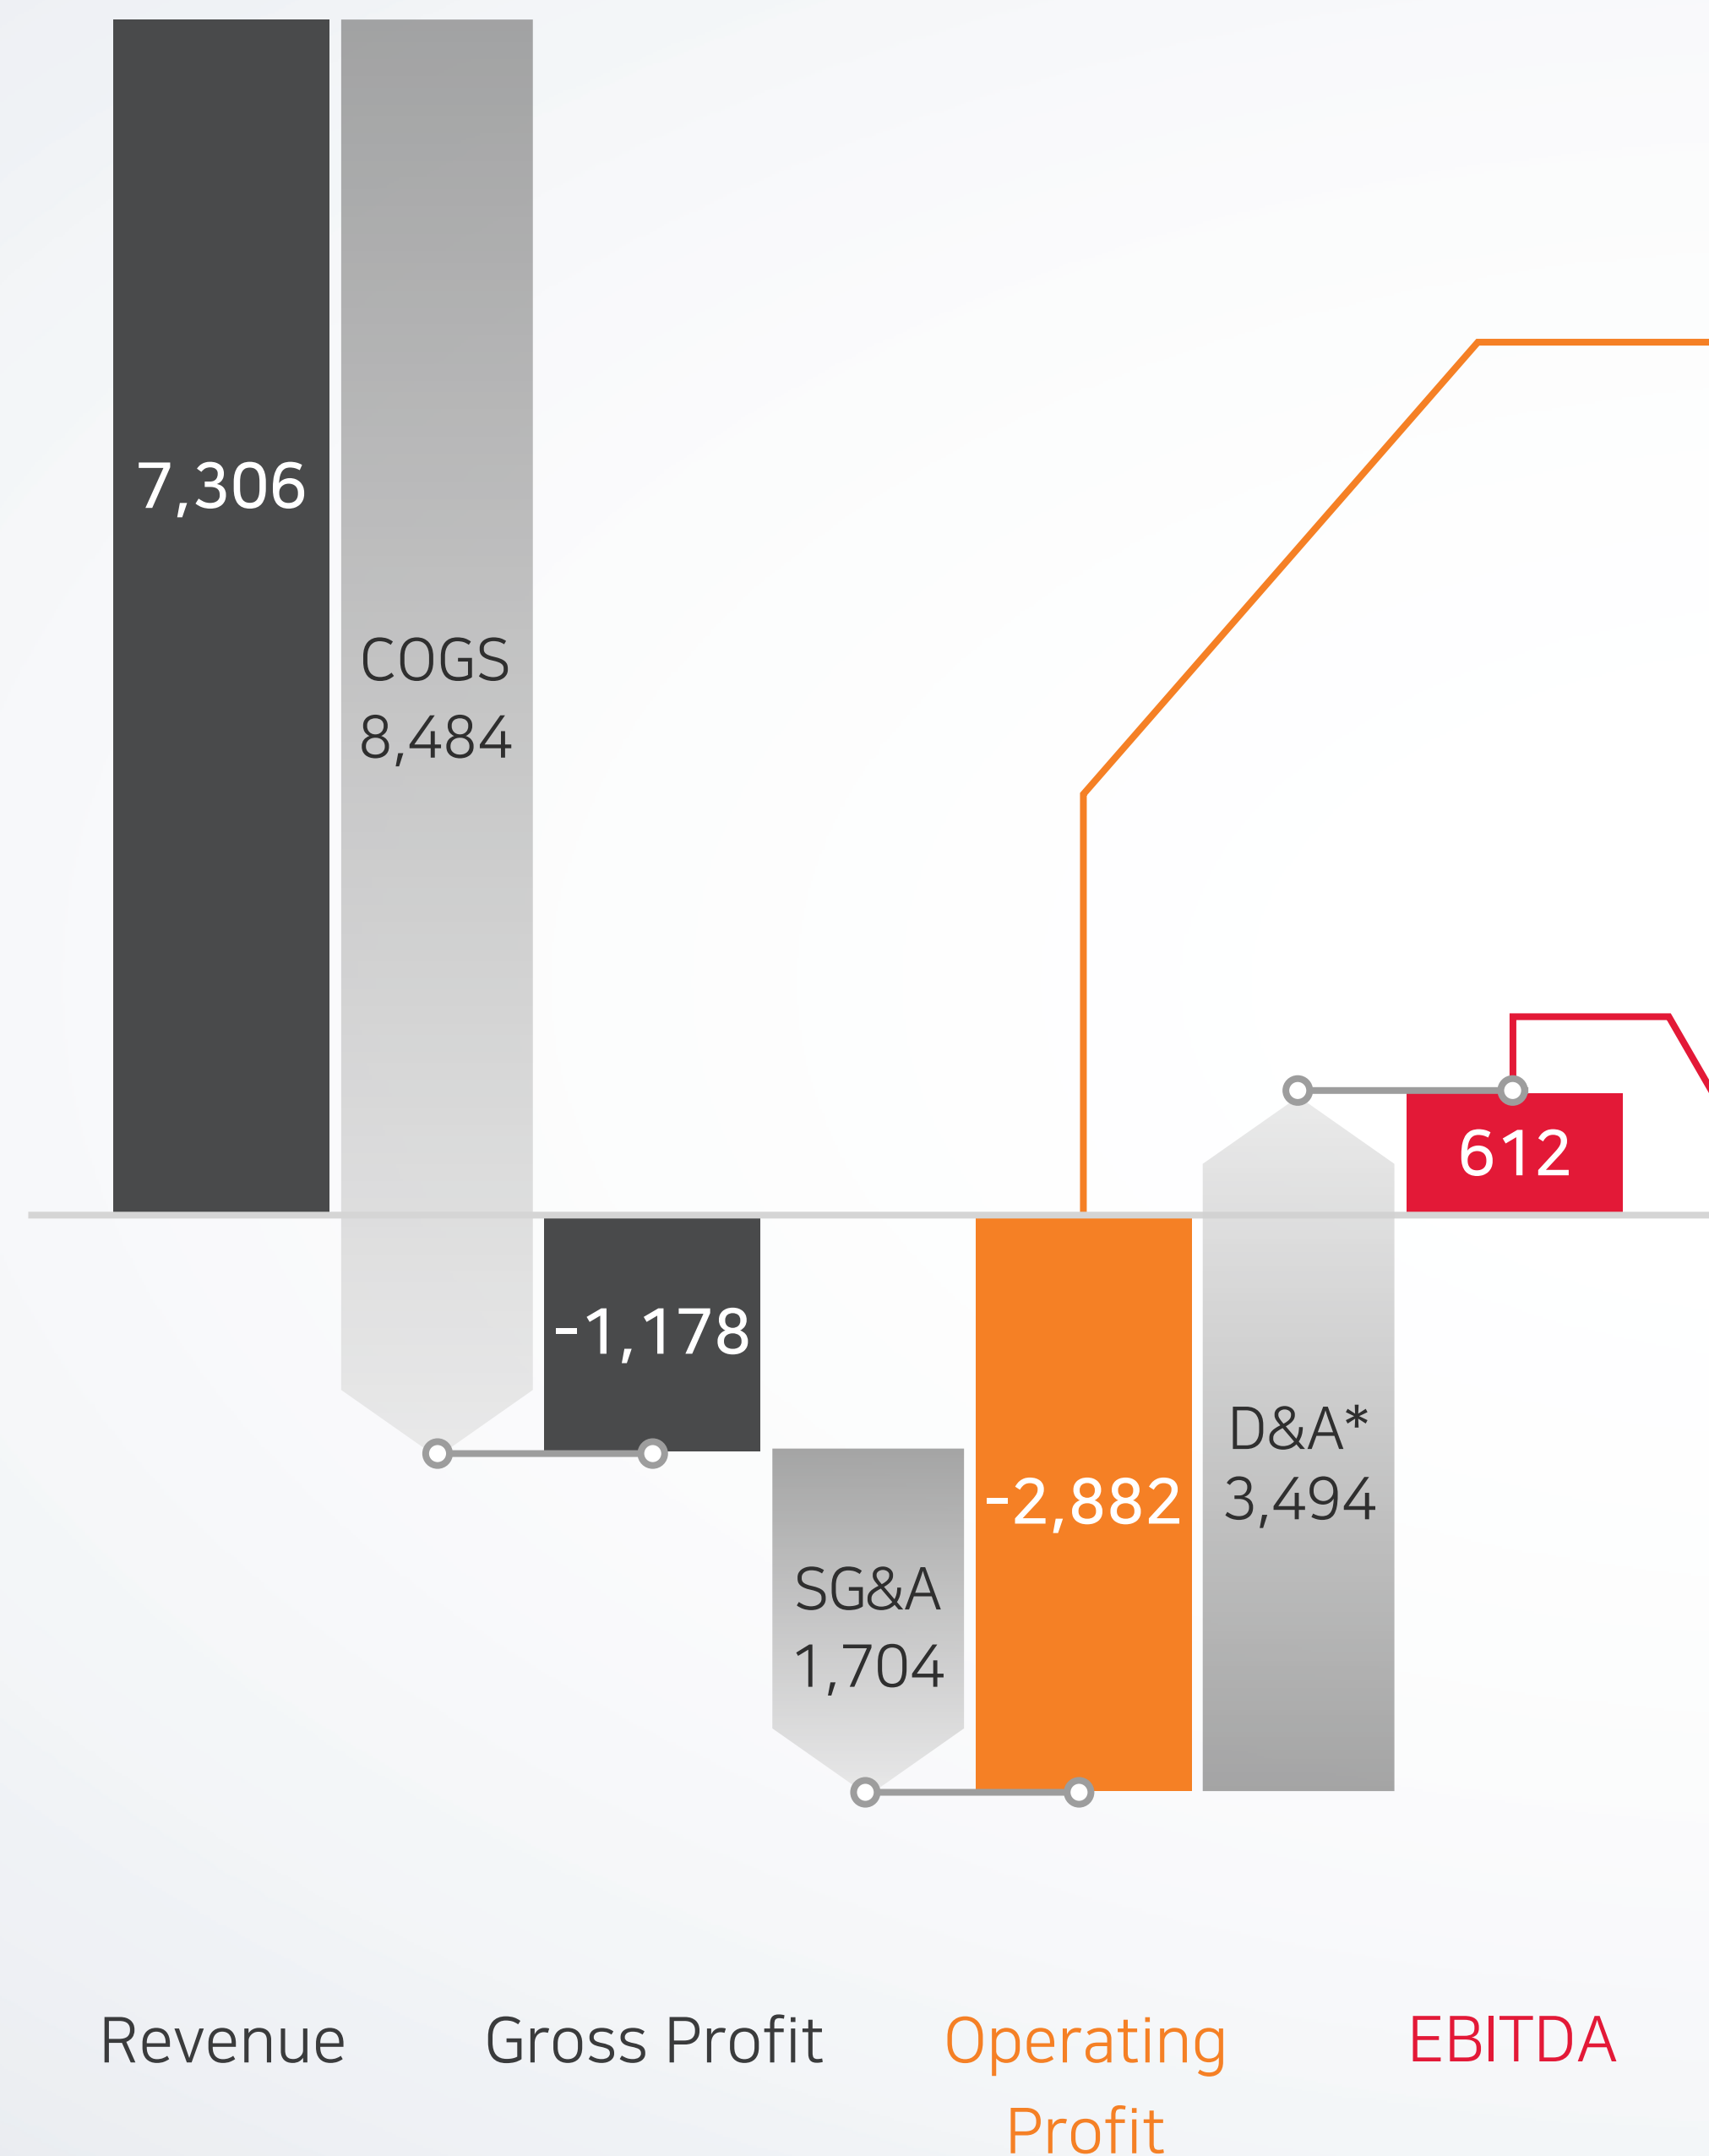

FY2023 Q1 Revenue
KRW 5.09T

NAND

B/G Around 50% ↑ QoQ

ASP Around 10% ↓ QoQ

Profit Analysis – Operating Profit

(Unit : KRW Billion)

Operating Profit (Loss)
KRW -2.88T

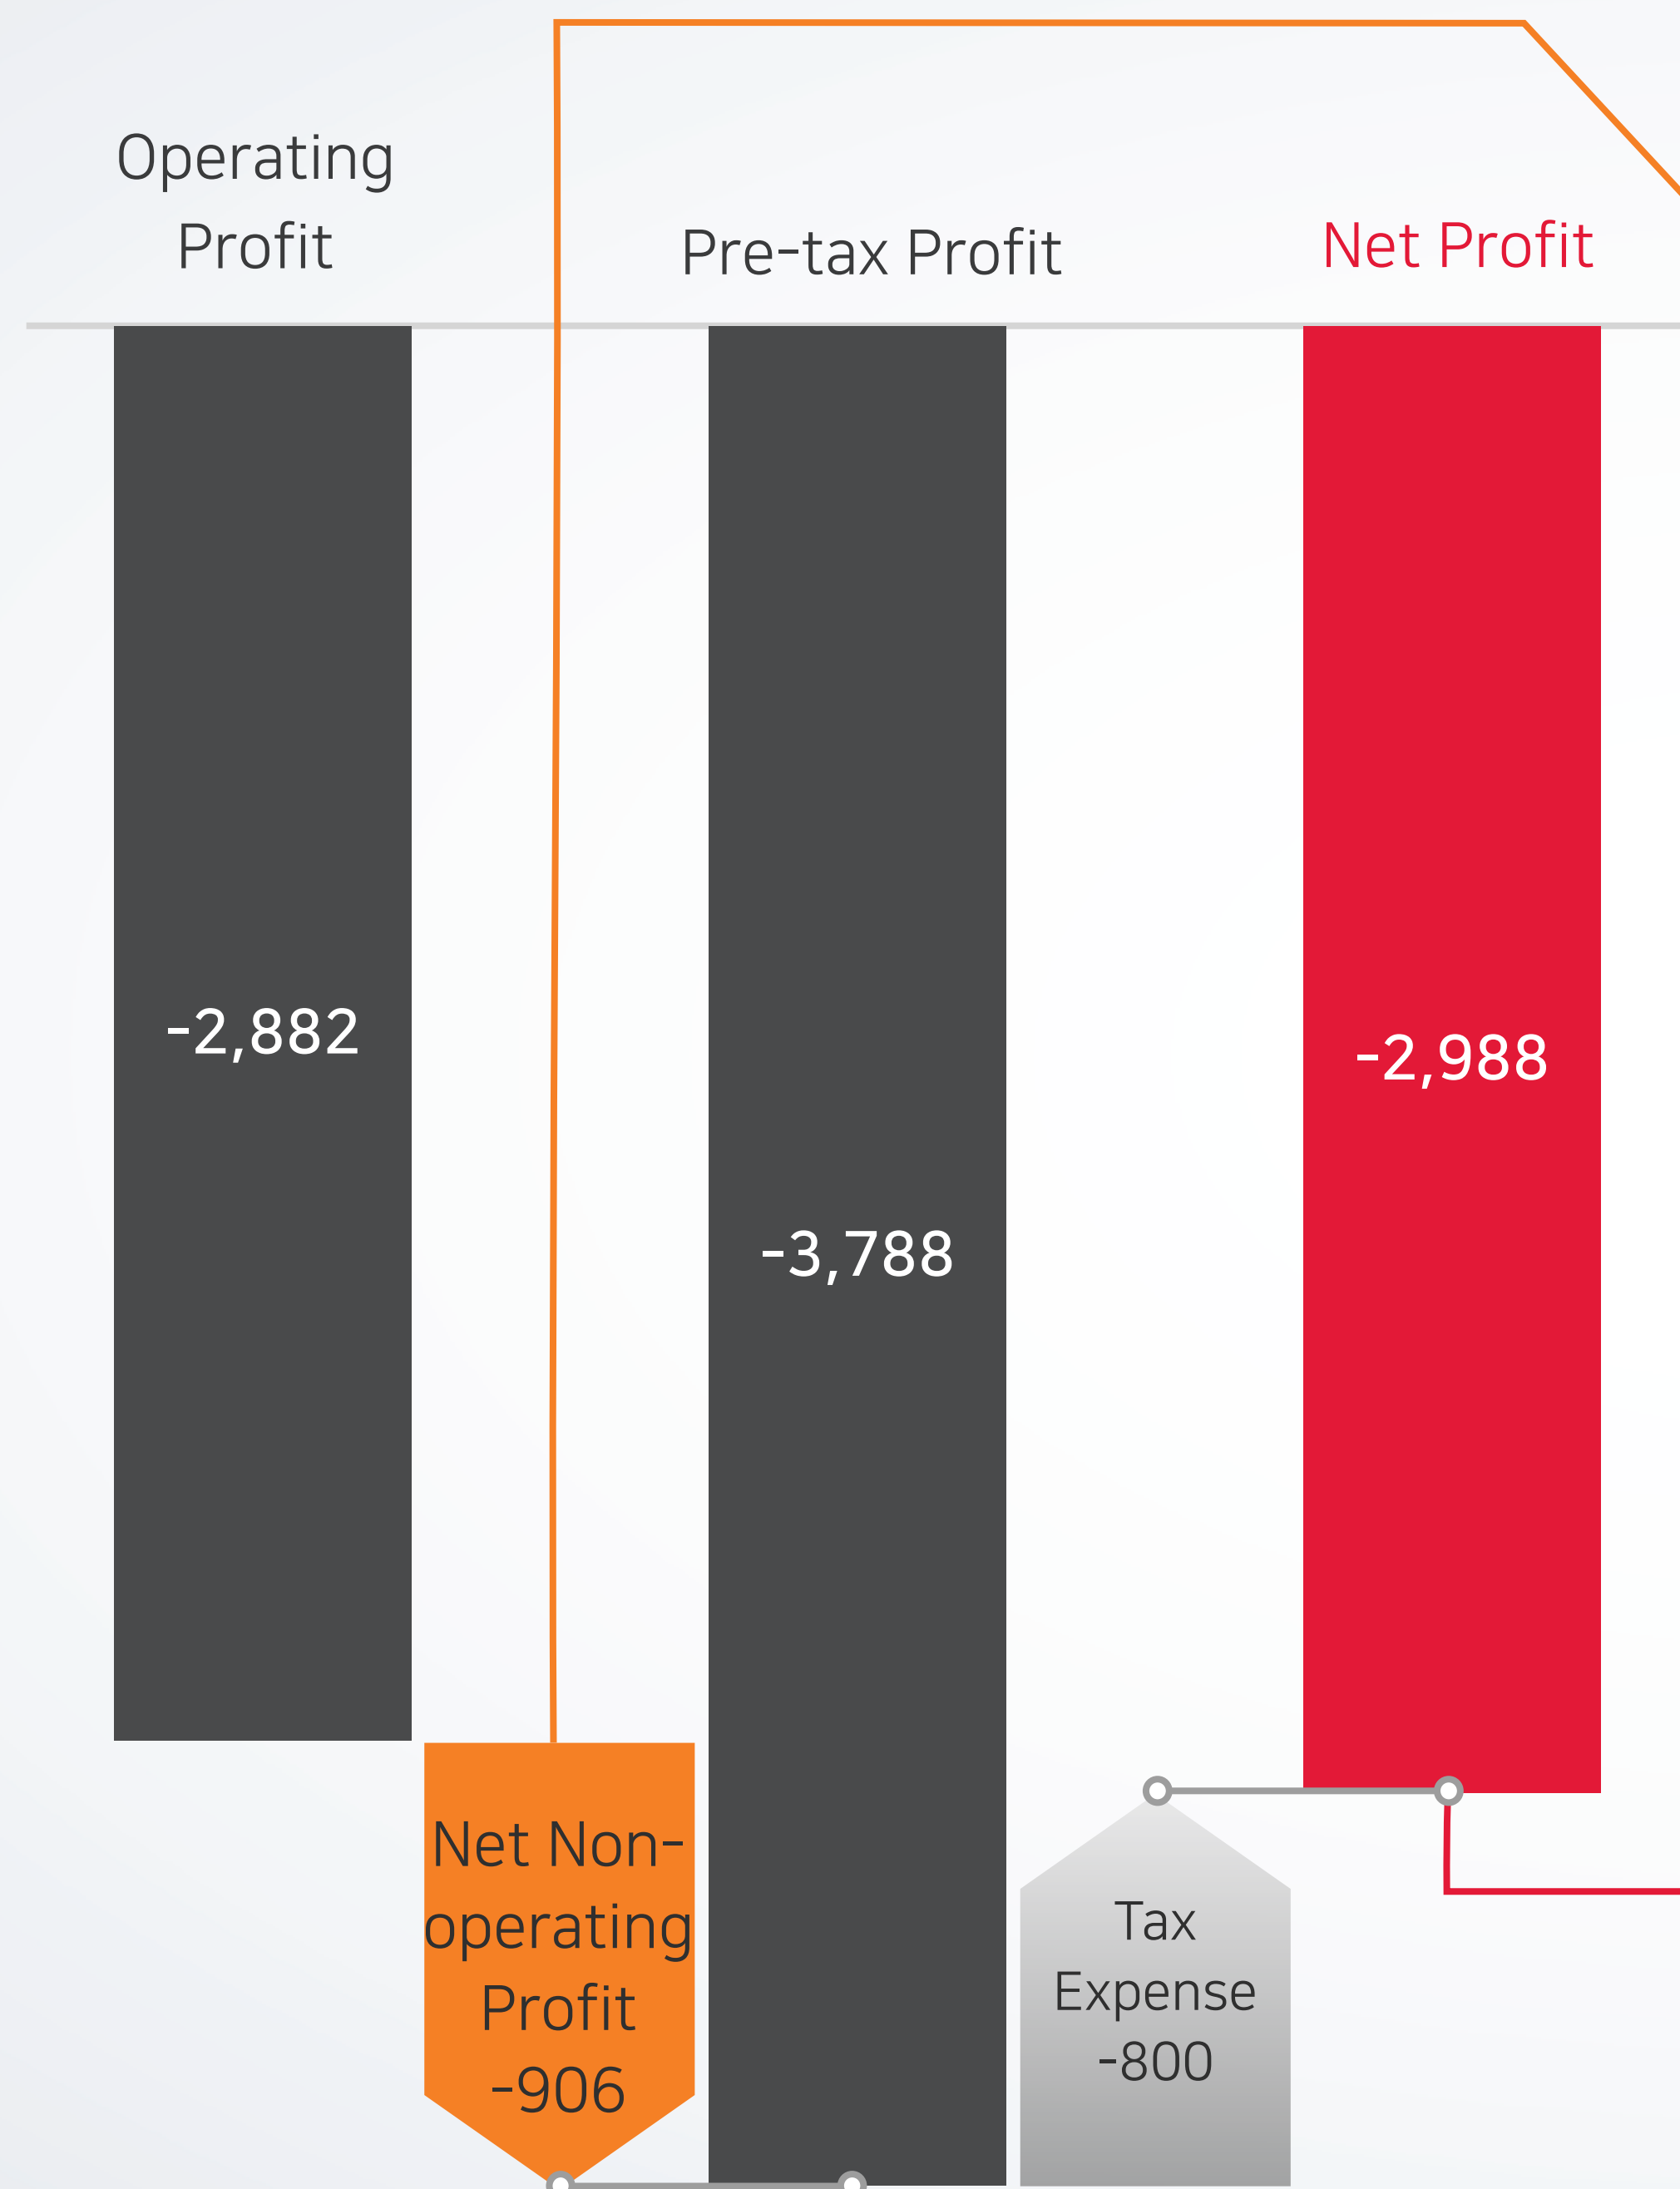

- Higher COGS due to increased bits sold, lower SG&A from cost reduction efforts
- Reduced inventory valuation losses due to DRAM pricing improvements

EBITDA KRW 0.61T
(+296% QoQ / -92% YoY)

- EBITDA margin 8%

* D&A : Depreciation and Amortization Expense

Profit Analysis – Net Profit

(Unit : KRW Billion)

Non-operating Profit (Loss)
KRW -0.91T

- Net interest expense KRW 0.33T,
- Foreign currency related net loss KRW 0.52T, etc.

Net Profit KRW -2.99T

- Net profit margin -41%

Financial Position

Market Outlook

Summary

DRAM Demand B/G

Yr. '23; +Mid~High Single% YoY

NAND Demand B/G

Yr. '23; +Mid Teen% YoY

PC

- Decreased channel inventory, increased shipment QoQ
- Limited impact on memory content due to higher sales stemming from CB/low-spec NB replacement demand
- Increased demand in 2H driven by commercial/gaming PCs

MO

- Subdued demand recovery following China re-opening
- SP demand improvement in 2H due to new product launches and content growth from lower memory prices
- Increased demand for high-density/high-performance LPDDR5 from Flagship products

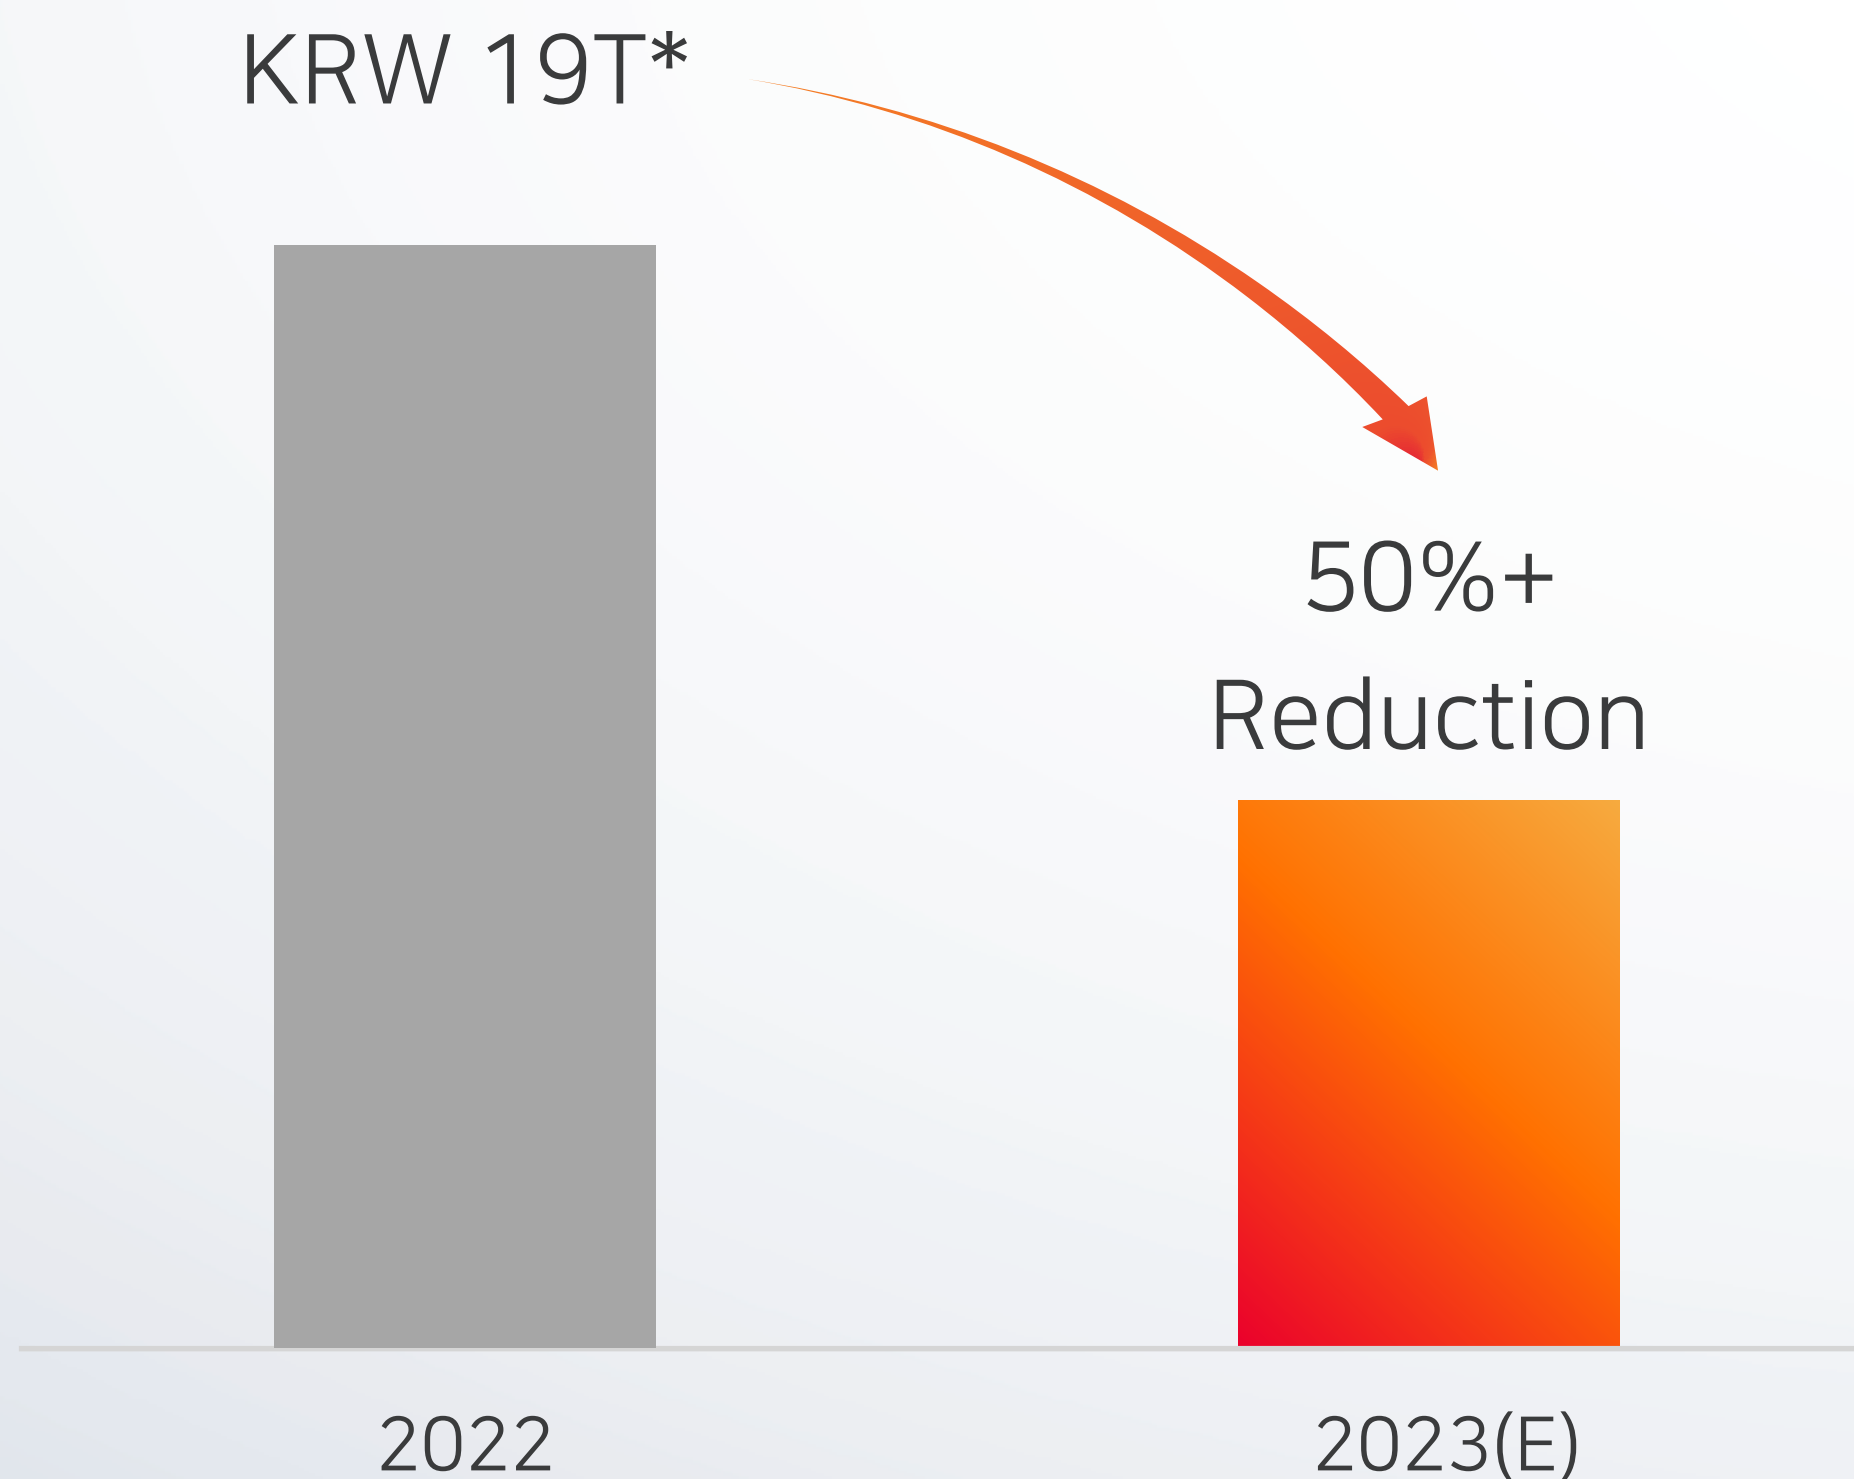

SV

- Softer Yr. '23 demand due to tightened IT spending/inventory adjustments by CSPs
- Rising demand for high-spec memory i.e. high-density DDR5/HBM, due to higher demand for high-end SVs driven by AI mkt. growth
- Mid-to-long term AI SV mkt. growth at mid-30% CAGR, total SV demand growth at high-single% CAGR

CapEx Outlook

Summary

Yr.'23 CapEx (reduced by more than 50%+ YoY),
well under execution

* Consolidated CapEx

- Memory demand recovering from 2Q, but insufficient to normalize inventory levels that has been elevated since 2H'22
- Considering higher industry inventory levels & lower profitability of NAND compared to DRAM, we decided to **cutback NAND production further**
- To secure capabilities for high-density DDR5/HBM within limited CapEx budget, we are making efforts to improve productivity · shorten equip. delivery time · reduce investment in others
- Maintain & execute previously set CapEx plans for the year

Company Plan

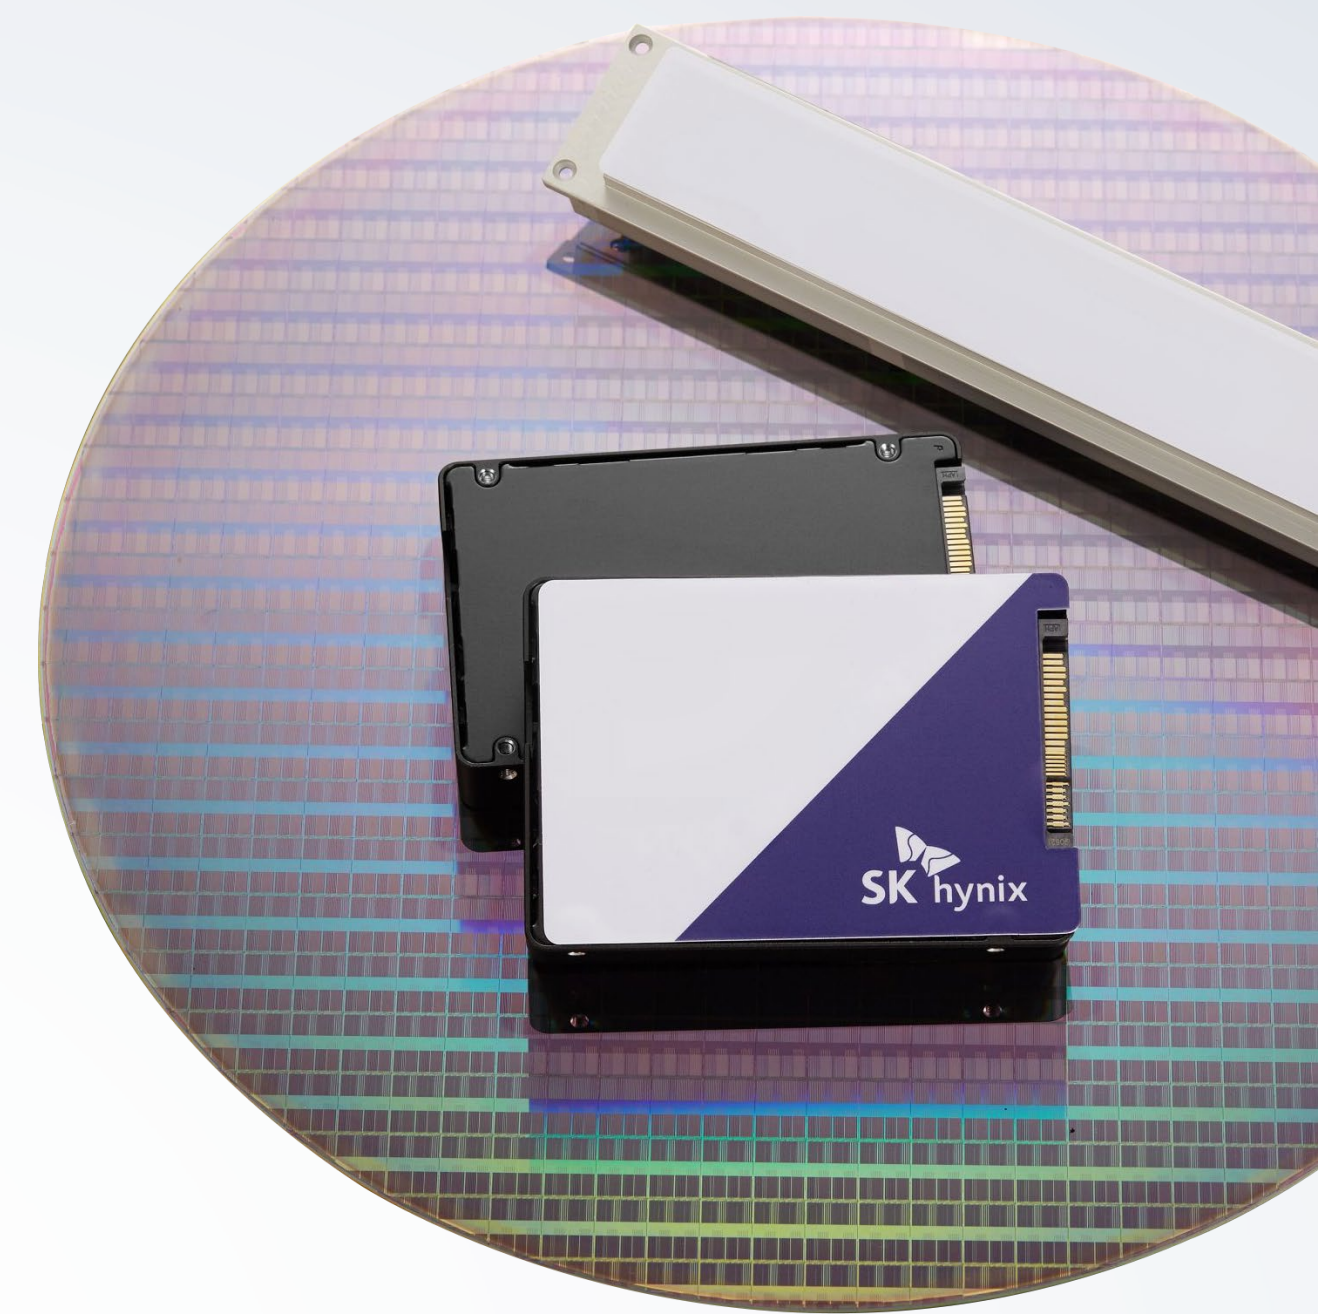

DRAM

B/G

Support high-density & HBM product demand
Expand sales of DDR5/high-performance, high-density LPDDR5
Low~mid teen% increase QoQ in Q3'23

Tech

Most 1anm products reached matured yield level
Prepared for mass production of 1bnm

NAND

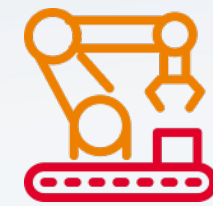

B/G

Expand sales of 176L based SSDs
Similar level of shipments to Q2 in Q3'23
(Solidigm included)

Tech

Most 176L products reached matured yield level
Prepared for mass production of 238L

Tech /Product Highlights

Market's fastest 1bnm DDR5 for servers in validation process

- With HKMG process, reduced power consumption by 20%+ comp. to 1anm
- Expand application of 1bnm to LPDDR5T & HBM3E in 1H'24

Full product line-up of 1anm DDR5

- Wide product portfolio of 1anm DDR5, including industry's solely validated 16Gb/24Gb, and 128GB+ high-density modules

HBM product competitiveness & leading M/S

- Available to support industry's largest density 24GB HBM3, with world's 1st 12-layer stack
- Yr. '23 sales of (DDR5 128GB+ high-density SV modules + HBM) to increase by more than 2X YoY

ESG Management

Issued 'Sustainability Report 2023' (Yr. '22 ESG activities, performance & future plans)

- Increased company-wide renewable electricity usage rate to 29.6% (4% in Yr. '21)
- Received platinum validation for ZWTL, by diverting 100% of waste away from landfill for all domestic sites
- Details on ESG performance available on company's 'Sustainability Reporting System'*

Completed On-site Assessment of Key/High-risk Partners in Supply Chain

- Follow-up of ESG online self-assessment results within supply chain
- Manage improvement process through regular monitoring
- Enhance supply chain assessment process (conducted every 2 years, with on-site assessment following partner's self-monitoring)
