I ordered two drives and they both came wrapped up great for transport and practically looked new, but one was unfortunately defective. They replied to my message in about an hour, issued a return label, and even processed my new order for the replacement the same day. Both the good one from my initial order and the replacement were exactly as advertised, with clean SMART data and passed both a long SMART and full bad block test with flying colors. Great value, great seller! Highly recommended!

They were in even a better condition than described. Seller communicated excellently and promptly and was very kind. Items were shipped same day and arrived in 2 days, blew my mind. Packaging was excellent and very very well protected. I will go out of my way to shop at this store in the future. Awesome seller.

A+ seller. Shipped quickly. GPU as described, clean unit. Well packaged and passes initial testing. I have a complaint for FedEx even though the package required a signature they just threw it on my porch and did not even knock, FedEx driver signed for package... That is obviously not the sellers fault.
