Re: In the Matter of Certain Portable Power Stations and
Packaging Therefor

DN2469

Dear Secretary Abbott:

This firm is counsel to Roadmaster (USA) Inc., Complainant in the above-captioned action. I write in response to a telephone call from David Lloyd, Esquire, of the Office of Unfair Import Investigation, in which Mr. Lloyd requested clarification of some details in Roadmaster's Complaint, which was sent to the Commission on or about February 7, 2006.

1. Mr. Lloyd requested an updated Verification to the complaint. The updated verification is attached at Tab 1.
2. Paragraph 67 of our Complaint discusses litigation pending in the United States District Court for the District of Delaware. The injunction issued in that case is attached at Tab 2.
3. Paragraph 2 of our Complaint states that the power stations at issue herein are manufactured abroad. Mr. Lloyd inquired as to the specific country of manufacture. The power stations at issue are manufactured in China pursuant to specifications developed by Roadmaster in the United States.
4. Mr. Lloyd requested clarification on Paragraph 9 of the Complaint. By way of clarification, Roadmaster has not licensed its patents, trademarks, copyrights, trade secrets or know-how.

5. Mr. Lloyd requested specific information as to Paragraph 39 of the Complaint concerning Roadmaster's domestic industry investments. As a general matter, Roadmaster's research and development efforts and related investments are made within the United States, specifically at its headquarters in Eatontown, New Jersey.

6. Mr. Lloyd requested any additional information Roadmaster may have regarding other sales of the subject product in the United States. Roadmaster has recently discovered that a virtually identical product is apparently being offered for sale by an importer/retailer in Southern California other than the one named in the district court action. While Roadmaster cannot state, at this juncture, that the product in question was manufactured by Sinochem Ningbo or any related entity, its investigation is continuing.

6. The Supplemental Exhibits submitted with the original Complaint are certified copies of documents exactly as received from the United States Patent and Trademark Office and United States Copyright Office.

Please let me know if you require any additional information with respect to this matter.

Respectfully,

A handwritten signature in black ink, appearing to read "Charles M. Hart", with a stylized flourish at the end.
