

**UNITED STATES INTERNATIONAL TRADE COMMISSION
WASHINGTON, D.C.**

**Before the Honorable Doris Johnson Hines
Administrative Law Judge**

In the Matter of:

CERTAIN WEARABLE DEVICES

Investigation No. 337-TA-1478

JOINT MOTION TO AMEND THE PROTECTIVE ORDER

Pursuant to Commission Rules 210.5 and 210.15, and Ground Rule 5, Complainants Samsung Electronics Co., Ltd. (“SEC”) and Samsung Electronics America, Inc. (“SEA”) (collectively, “Samsung” or “Complainants”) and Respondents Ouraring Inc. and Oura Health Oy (collectively, “Oura” or “Respondents”) respectfully move to amend the Protective Order entered on January 16, 2026 (Order No. 1) to address the production and review of source code, as outlined in Exhibit 1.

Ground Rule 5.1 Certification

Counsel for Complainants and Counsel for Respondents certify that they met and conferred regarding this motion and are filing it jointly.

This case will require discovery into source code. Complainants have already served document requests seeking production of source code. This type of evidence is highly sensitive and requires additional protections and safeguards under 19 C.F.R. § 201.6 because source code is highly confidential business information. The improper disclosure of source code would likely impair the Commission’s ability to obtain such information in the future to perform its statutory functions. It would also cause substantial and irreparable harm to the disclosing party. *See e.g.*,

Certain Graphics Processing Chips, Sys. On a Chip & Prods. Containing the Same, Inv. No. 337-TA-941, Order No. 1 at ¶ 18 (Dec. 30, 2014); *Certain Wi-fi Routers, Wi-fi Devices, Mesh Wi-fi Network Devices, & Hardware & Software Components Thereof*, Inv. No. 337-TA-1361, Order No. 9 (July 13, 2023). The proposed amendment is also appropriate because it is based on the ITC's model e-discovery attachment meant to supplement Protective Orders issued in 337 Investigations.¹

For these reasons, Parties respectfully request that the Administrative Law Judge amend the Protective Order to include the amendment attached as Exhibit 1.

Dated: February 17, 2026

Respectfully submitted,

/s/ D. Sean Trainor

EXHIBIT 1

18. Source Code. A supplier may designate and produce by making available for inspection documents, information, or things as “CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS’ EYES ONLY INFORMATION,” which shall mean material of a supplier that constitutes or contains non-public Source Code on a stand-alone secure computer in accordance with the heightened protections, access requirements, and other provisions contained herein.

A. “Source Code” shall mean:

(i) Source code and object code (*i.e.*, computer instructions and data definitions expressed in a form suitable for input to an assembler, compiler, or other translator). For avoidance of doubt, this includes source files, make files, intermediate output files, executable files, header files, resource files, library files, module definition files, map files, object files, linker files, browse info files, and debug files.

B. Materials designated as “CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS’ EYES ONLY INFORMATION,” shall only be reviewable by SOURCE CODE QUALIFIED PERSONS. SOURCE CODE QUALIFIED PERSONS include the following: (1) Outside Litigation Counsel who have signed a protective order undertaking in this Investigation, including necessary secretarial and support personnel employed by such Outside Litigation Counsel, as necessarily incident to the litigation of this Investigation; (2) personnel at document duplication, translation, coding imaging or scanning service establishments retained by, but not regularly employed by, Outside Litigation Counsel as necessarily incident to the litigation of this Investigation; (3) the Commission, the Administrative Law Judge, the Commission Investigative Staff, Commission personnel and contract personnel who are acting in the capacity of Commission employees as indicated in paragraph 3 of this Protective Order; (4) court reporters, stenographers and videographers transcribing or recording testimony at depositions, hearings or trial in this Investigation; and (5) Qualified Consultants and/or Qualified Experts in this Investigation (*i.e.*, those have satisfied the conditions under paragraph 11 of this Protective Order in this Investigation); (6) current employees of the supplier who, in their ordinary course of business with the supplier, receive or have access to “CONFIDENTIAL SOURCE CODE — OUTSIDE ATTORNEYS’ EYES ONLY INFORMATION” produced by that supplier (solely with respect to “CONFIDENTIAL SOURCE CODE — OUTSIDE ATTORNEYS’ EYES ONLY

INFORMATION” produced by that supplier); and (7) 30(b)(6) witnesses, or expert witnesses designated by the supplier.

C. Qualified Consultants and/or Qualified Experts may only review CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS’ EYES ONLY INFORMATION after being expressly identified to the supplier as seeking access to CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS’ EYES ONLY INFORMATION. If the receiving party wishes an already identified Qualified Consultant or Qualified Expert to receive CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS’ EYES ONLY INFORMATION it must re-comply with the provisions of paragraph 11 of this Protective Order in this Investigation, including allowing the supplier an opportunity to object to this Qualified Consultant or Qualified Expert receiving CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS’ EYES ONLY INFORMATION, and identify the proposed Qualified Consultant or Qualified Expert as seeking access to CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS’ EYES ONLY INFORMATION.

D. Source Code shall be provided with the following additional protections:

(i) Nothing in this Protective Order shall obligate the parties to produce any Source Code, nor act as an admission that any particular Source Code is discoverable.

(ii) Access to Source Code will be given only to SOURCE CODE QUALIFIED PERSONS.

(iii) Access to Source Code shall be provided on one stand-alone secure computer (that is, the computer may not be linked to any network, including a local area network (“LAN”), an intranet, or the Internet and may not be connected to any printer or storage device other than the internal hard disk drive of the computer). The stand-alone secure computer shall be kept in a secure location at the offices of the supplier’s Outside Litigation Counsel, or at such other location as the supplier and receiving party mutually agree. The stand-alone secure computer may be password protected and shall have the Source Code stored on a hard drive contained inside the computer. The supplier shall produce Source Code in computer searchable format on the stand-alone computer. The stand-alone secure computer shall, at the receiving party’s request, include reasonable analysis tools appropriate for the type of Source Code. The receiving party shall be responsible for providing

the tools or licenses to the tools that it wishes to use to the supplier so that the supplier may install such tools on the stand-alone secure computer.

(iv) To enable electronic note taking during Source Code reviews, the producing Party of Source Code shall also provide an additional “note-taking” computer loaded with at least Microsoft OneNote and Microsoft Word software (or an equivalent word processing application), unless otherwise agreed by the producing Party and the receiving Party. The note-taking computer shall either be a portable laptop or be located in close proximity to the stand-alone computer to facilitate electronic note taking.

1. At the beginning of a Source Code review session, the producing Party shall, when requested by the receiving Party, upload to the note-taking computer an encrypted notes file (e.g., using an encrypted USB thumb drive from the producing Party). The reviewer may then decrypt and open the notes file using the note-taking computer for the purpose of taking notes during the Source Code review session. During the Source Code review session, the producing Party may disable any input and/or output ports and devices on the note-taking computer (e.g., disable any USB ports, Wi-Fi or Ethernet connectivity, and/or optical disc drives) except as necessary to enable the reviewer to take notes (e.g., enable mouse and keyboard). At the end of a Source Code review session, the reviewer may save any notes in the same encrypted notes file. The producing Party shall, when requested by the reviewer, download from the note-taking computer the encrypted notes file and provide an electronic copy to the reviewer. Such notes will be labeled “RESTRICTED CONFIDENTIAL – SOURCE CODE.”

2. If requested by the producing Party, a copy of the encrypted notes file shall remain on the note-taking computer, so long as it remains encrypted. If requested by the producing Party, a representative for the producing Party may oversee the transfer of the encrypted notes file from the secure data storage device to the note-taking computer, and vice-versa, without reviewing the substance of the electronic notes.

3. The reviewer shall also be entitled to take handwritten notes relating to the Source Code but may not copy the Source Code into the notes. Such notes will be labeled “RESTRICTED CONFIDENTIAL - SOURCE CODE.”

(v) The receiving party shall make reasonable efforts to restrict its requests for access to the stand-alone secure computers to normal business hours, which for purposes of this Paragraph shall be 9:00 a.m. through 5:00 p.m. local time at the reviewing location. Upon reasonable notice from the receiving party, which shall not be less than three (3) business days in advance, the supplier shall make reasonable efforts to accommodate the receiving party's request for access to the computers outside of normal business hours. Such an expanded review period shall not begin earlier than 8:00 a.m. and shall not end later than 8:00 p.m. local time at the reviewing location. The parties agree to cooperate in good faith such that maintaining the Source Code at the offices of the supplier's Outside Litigation Counsel shall not unreasonably hinder the receiving party's ability to efficiently conduct the prosecution or defense in this Investigation. The parties reserve their rights to request access to the Source Code at the site of any hearing or trial. Proper identification of all SOURCE CODE QUALIFIED PERSONS shall be provided prior to any access to the stand alone secure computers.

(vi) All SOURCE CODE QUALIFIED PERSONS who will review Source Code on behalf of a receiving party shall be identified in writing to the supplier at least seven (7) business days in advance of the first time that such person reviews such Source Code. Such identification shall be in addition to any disclosure required under paragraph 18(B) of this Protective Order. The supplier shall provide these individuals with information explaining how to start, log on to, and operate the stand-alone secure computer in order to access the produced Source Code on the stand-alone secure computers. For subsequent reviews by SOURCE CODE QUALIFIED PERSONS, the receiving party shall give at least one business day (and at least 24 hours) notice to the supplier of such review.

(vii) No person other than the supplier may alter, dismantle, disassemble or modify the stand-alone computer in any way, or attempt to circumvent any security feature of the computer.

(viii) No copies shall be made of Source Code, whether physical, electronic, or otherwise, other than volatile copies necessarily made in the normal course of accessing the Source Code on the stand-alone secure computer, except for: (1) print outs of reasonable portions of the Source Code in accordance with the provisions of paragraphs 18(D)(ix)-(x) of this Protective Order; and (2) such other uses to which the parties may agree or that the Administrative Law Judge or the

Commission may order. No outside electronic devices, including but not limited to laptop computers, USB flash drives, zip drives, or devices with camera functionalities shall be permitted in the same room as the stand-alone secure computer. The supplier may exercise personal supervision from outside the review room over the receiving party when the receiving party is in the Source Code review room. Such supervision, however, shall not entail review of any work product generated by the receiving party, *e.g.*, monitoring the screens of the stand-alone computer, monitoring any surface reflecting any notes or work product of the receiving party, or monitoring the key strokes of the receiving party. There will be no video supervision by any supplier.

(ix) Nothing may be removed from the stand-alone secure computer, either by the receiving party or at the request of the receiving party, except for (1) print outs of reasonable portions of the Source Code in accordance with the provisions of paragraphs 18(C)(ix)-(x) of this Protective Order; and (2) such other uses to which the parties may agree or that the Administrative Law Judge or the Commission may order.

(x) At the request of the receiving party, the supplier shall within three (3) business days provide one (1) hard copy print out of the specific lines, pages, or files of the Source Code that the receiving party believes in good faith are necessary to understand a relevant feature of an accused product. During the review of Source Code, if a receiving party believes in good faith that contemporaneous access to print-outs of particular pages of the Source Code are necessary to further the Source Code review, the receiving party may request and the supplier shall promptly provide one (1) hard copy print out of such pages. The receiving party shall limit its requests for contemporaneous access to print outs to those pages actually necessary to conduct the Source Code review. If the supplier objects in any manner to the production of the requested source code (*e.g.*, the request is too voluminous), it shall state its objection within the allotted five (5) business days pursuant to this paragraph. In the event of a dispute, the parties will meet and confer within five (5) business days of the objection being raised and if they cannot resolve it the parties will raise it with the ALJ.

(xi) Hard copy print outs of Source Code shall be provided on bates numbered and watermarked or colored paper clearly labeled CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS' EYES ONLY INFORMATION on each page and shall be maintained by the receiving party's

Outside Litigation Counsel or SOURCE CODE QUALIFIED PERSONS in a secured locked area. The receiving party may also temporarily keep the print outs at: (a) the Commission for any proceedings(s) relating to the Source Code, for the dates associated with the proceeding(s); (b) the sites where any deposition(s) relating to the Source Code are taken, for the dates associated with the deposition(s); and (c) any intermediate location reasonably necessary to transport the print outs (*e.g.*, a hotel prior to a Commission proceeding or deposition). The receiving party shall exercise due care in maintaining the security of the print outs at these temporary locations. No further hard copies of such Source Code shall be made and the Source Code shall not be transferred into any electronic format or onto any electronic media except that:

1. The receiving party is permitted to make up to five (5) additional hard copies for use at a deposition.
2. The receiving party is permitted to make up to five (5) additional hard copies for the Commission in connection with a Commission filing, hearing, or trial, and of only the specific pages directly relevant to and necessary for deciding the issue for which the portions of the Source Code are being filed or offered. To the extent portions of Source Code are quoted in a Commission filing, either (1) the entire document will be stamped and treated as CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS' EYES ONLY INFORMATION; or (2) those pages containing quoted Source Code will be separately stamped and treated as CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS' EYES ONLY INFORMATION.
3. Electronic copies of Source Code may only be made to be included in documents which, pursuant to the Commission's rules, procedures and order(s), cannot be filed or served in hard copy form and must be filed or served electronically. Only the necessary amount of electronic copies to effectuate such filing or service may be stored on any receiving party server, hard drive, thumb drive, or other electronic storage device at any given time. After any such electronic filing or service, the receiving party shall delete all electronic copies from all receiving party electronic storage devices.
4. The receiving party is permitted to make up to six (6) identical encrypted CD-ROMs or DVDs that contain an electronic copy of the hard copy print-outs of Source Code

provided by the supplier. The receiving party may provide these encrypted CD-ROMs or DVDs to Qualified Consultants or Qualified Experts, who may use such encrypted CD-ROMs or DVDs solely for active review of the Source Code. The receiving party is also permitted to make temporary copies necessarily made in the production of these encrypted CD-ROMs or DVDs, provided any such copies are immediately deleted once the temporary copies are no longer required for the production of the encrypted CD-ROMs or DVDs.

5. The supplier shall, on request, make a searchable electronic copy of the Source Code available on a stand-alone computer during depositions of witnesses who would otherwise be permitted access to such Source Code. The receiving party shall make such request at the time of the notice for deposition.

(xii) Nothing in this Protective Order shall be construed to limit how a supplier may maintain material designated as CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS' EYES ONLY INFORMATION.

(xiii) Outside Litigation Counsel for the receiving party with custody of CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS' EYES ONLY INFORMATION shall maintain a source code log containing the following information: (1) the identify of each person granted access to the CONFIDENTIAL SOURCE CODE—OUTSIDE ATTORNEYS' EYES ONLY INFORMATION; and (2) the first date on which such access was granted. Outside Litigation Counsel for the receiving party will produce, upon request, each such source code log to the supplier within twenty (20) days of the final determination of the Investigation.

19. No prejudice. The private parties agree that entering into this Protective Order Addendum is without prejudice to any party's rights to propose, request or otherwise move for different provisions relating to Source Code production in the Investigation or any other investigation, action or proceeding.
