Re: *Certain Semiconductor Devices, Products Containing Same, and Components
Thereof*, ITC Docket No. 337-TA-3896

Dear Secretary Barton:

Further to my letter dated April 23, 2026, requesting confidential treatment for certain exhibits submitted with the Complaint in the above-referenced investigation, this letter provides additional information in support of Complainant GlobalFoundries U.S. Inc.'s request for confidential treatment of Confidential Exhibit No. 45.

Confidential Exhibit No. 45 is a portion of an analysis of a semiconductor chip made by Respondents performed by a third-party testing facility. Analyses like Confidential Exhibit No. 45 are commonly known as "tear-down reports," and are provided to interested companies by testing facilities on a paid subscription basis. As part of the subscription agreement, subscribers may not disseminate the report to non-subscribers. The information revealed by a tear-down report is not easily discerned, and the process of discerning it requires special tools, skills, and knowledge, that are the stock-in-trade of such testing facilities. Because dissemination of such reports would cause testing facilities that generate them economic harm, and the testing facilities take contractual steps to ensure that they are not so disseminated, the Commission commonly accords them confidential treatment pursuant to Commission Rule 201.6.

The Honorable Lisa R. Barton
April 1, 2026

On this basis and for these reasons, GlobalFoundries respectfully requests confidential treatment of Confidential Exhibit No. 45 in this investigation.

Respectfully submitted,

/s/ Bert C. Reiser
