

Exhibit 1

Representative Product that Infringes Ultra-Mek’s U.S. Patent No. 8,016,348

Barcalounger / Living Style Powered Rocker-Recliner with Carya Smart 5115 Mechanism

The following chart illustrates how the Barcalounger / Living Style Powered Rocker-Recliner (the “Representative Rocker” and/or “Living Style Barcalounger”) containing the Carya Smart 5115 Mechanism (the “Representative Rocker Mechanism”) infringes claims 1-4 and 6-9 of U.S. Patent No. 8,016,348. The Representative Rocker and/or Representative Rocker Mechanism are representative products only and illustrate infringement of the imported and accused products. The following chart contains highlighting, color-coding, and other annotations which are intended to assist the reader in identifying relevant elements, and are not intended to be binding or limiting. Complainants reserve the right to modify the structures associated with identified elements, to identify other functions for identified structures, and/or to adjust the identification of one or more components identified herein.

Complainants’ investigation of the extent of infringement is ongoing, and the following chart is based on publicly available information known to Complainants. Complainants reserve the right to offer additional evidence to prove infringement in their expert reports, and in motions and at trial. Complainants reserve the right to supplement, amend, or modify the foregoing based on new information that becomes available during discovery, the exchange of proposed claim constructions, and/or issuance of a claim construction order.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
1[p]	1. A seating unit, comprising:	The Living Style Barcalounger is a seating unit.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism	
			

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		 UNDER PENALTY OF LAW THIS TAG NOT TO BE REMOVED EXCEPT BY THE CONSUMER ALL NEW MATERIAL CONSISTING OF BODY POLYURETHANE FOAM PAD54% POLYESTER FIBER..... 35% POLYESTER FIBER BATTING11 % REG. NO. PA.42351(VN) Certification is made by the manufacturer that the materials in this article are described in accordance with law. MADE BY LIVING STYLE (VIETNAM) LTD 1ST&2ND FLOOR RIVER GARDEN 170 NGUYEN VAN HUONG HO CHI MINH HO CHI MINH VIETNAM 71300-0 Date of delivery: 2024-10 Finished size: Net weight of filling mat: Federal RN#: Federal Textile Information MADE IN VIETNAM 119 ITEM NO.: 2376-90928-79 LOT: 1190-2024-10 WARNING: This product can expose you to chemicals including Formaldehyde (gas) to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov/furniture. AVERTISSEMENT: Ce produit peut vous exposer à des agents chimiques, y compris de Californie comme pouvant causer le cancer et des malformations congénitales. Pour de plus amples informations, prière de consulter www.P65Warnings.ca.gov/furniture. ADVERTENCIA: Este producto puede exponerle a químicos, incluyendo el formaldehído, el Estado de California como causantes de cáncer o defectos de nacimiento u otros. Para mayor información visite www.P65Warnings.ca.gov/furniture. NOTICE THIS ARTICLE MEETS THE FLAMMABILITY REQUIREMENTS OF CALIFORNIA BUREAU OF HOUSEHOLD GOODS AND SERVICES TECHNICAL BULLETIN 117-2013. CARE SHOULD BE EXERCISED NEAR OPEN FLAME OR WITH BURNING CIGARETTES. The upholstery materials in this product: contain added flame retardant chemicals. X contain NO added flame retardant chemicals. The State of California has updated the flammability standard and determined that the fire safety requirements for this product can be met without adding flame retardant chemicals. The state has identified many flame retardant chemicals as being known to, or strongly suspected of, adversely impacting human health or development. COMPLIES WITH U.S. CPSC REQUIREMENTS FOR UPHOLSTERED FURNITURE FLAMMABILITY
		The Living Style Barcalounger comprises a Carya Smart 5115 mechanism.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		
1[a]	a base unit with a first bearing surface;	The Living Style Barcalounger includes a base unit as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		BASE UNIT  The base unit includes multiple bearing surfaces including a first bearing surface on the upper portion of the base unit.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		
1[b]	a generally horizontally-disposed seat positioned above the base unit;	The Living Style Barcalounger includes a generally horizontally-disposed seat positioned above the base unit as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		
1[c]	a generally upright backrest positioned above the base unit and substantially rearward of the seat;	The Living Style Barcalounger includes a generally upright backrest positioned above the base unit and substantially rearward of the seat as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		
1[d]	an extendable ottoman;	The Living Style Barcalounger includes an extendable ottoman as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		
1[e]	a reclining mechanism attached to the seat, the backrest, the ottoman and the base unit, the reclining mechanism comprising a plurality of pivotally interconnected links;	The Living Style Barcalounger includes a reclining mechanism attached to the seat, the backrest, the ottoman and the base unit as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		 The plurality of pivotally interconnected links is shown above.
1[f]	a reciprocating mechanism attached to the base unit and the reclining mechanism, the reciprocating mechanism being configured to enable the seat, backrest and reclining mechanism to reciprocate relative to the base unit along a longitudinal path responsive	The Living Style Barcalounger includes a reciprocating mechanism attached to the base unit and the reclining mechanism that is configured to enable the seat, backrest and reclining mechanism to reciprocate relative to the base unit along a longitudinal path responsive to a longitudinally-directed force shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
	to a longitudinally-directed force; and	 The reciprocating mechanism comprises at least the rocker cam, rocker spring assembly, and brackets shown above. As shown below, when a longitudinally-directed force is applied, the reciprocating mechanism allows the chair to rock forward and backward.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		
1[g]	a power actuating unit attached to the reclining mechanism, the actuating unit configured to move the seating unit between (a) an upright position, in which the seat is generally horizontally disposed, the backrest is generally vertically disposed, and the ottoman is generally vertically disposed and positioned below the seat, (b) an intermediate TV position, in which the ottoman is generally horizontally disposed in front of the seat and the backrest and the seat substantially maintain the	The Living Style Barcalounger includes a power actuating unit attached to the reclining mechanism that is configured to move the seating unit between an upright position, an intermediate TV position, and a full reclined position. The power actuating unit is shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
	same relationship as they have in the upright position, and (c) a fully reclined position, in which the angle between the backrest and the seat increases;	 The photos below depict the three positions between which the Living Style Barcalounger may be moved by the power actuating unit.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		UPRIGHT  INTERMEDIATE TV  FULLY RECLINED 
1[h]	wherein the actuating unit is attached to an actuating mechanism, the actuating mechanism comprising:	The Living Style Barcalounger actuating unit (not labeled) is attached to an actuating mechanism as shown below.  ACTUATING MECHANISM

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
1[i]	a cross-member extending transversely across the seating unit;	The Living Style Barcalounger actuating mechanism includes a cross-member (yellow) extending transversely across the seating unit as shown below. 
1[j]	first and second projections fixed to the cross-member;	The Living Style Barcalounger actuating mechanism includes first (green) and second (white) projections fixed to the cross-member (yellow) as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		
1[k]	wherein the first projection is pivotally attached to the actuating unit; and	The Living Style Barcalounger first projection is pivotally attached to the actuating unit (not labeled) as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		 The first projection is attached to the actuating unit such that the first projection and actuating unit can pivot within the mechanism.
1[1]	wherein the second projection is pivotally attached to a lower swing link of the reclining mechanism, the lower swing link being pivotally attached to an upper swing link of the reclining mechanism and to a mounting bracket that is	The Living Style Barcalounger second projection is pivotally attached to a lower swing link via the upper swing link , and the lower swing link is pivotally attached to the upper swing link and a mounting bracket that is attached to the reciprocating mechanism as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
	attached to the reciprocating mechanism.	
2	2. The seating unit defined in claim 1, wherein the reclining mechanism includes a pantographic linkage on which the ottoman is mounted, and wherein in the TV and fully reclined positions, pivots between links of the pantographic linkage form a near over-center arrangement that locks the ottoman in position.	The Living Style Barcalounger reclining mechanism includes a pantographic linkage on which the ottoman is mounted as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		 When the Living Style Barcalounger is in the intermediate TV and fully reclined positions, the ottoman is locked in place by the near-over center arrangement of pivots between the ottoman links as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		
3	3. The seating unit defined in claim 1, further comprising a locking mechanism that allows the seating unit to reciprocate while in the upright position but prevents reciprocating of the seating unit while in the TV and fully reclined positions.	The Living Style Barcalounger includes a locking mechanism that allows the seating unit to reciprocate while in the upright position but prevents reciprocating of the seating unit while in the TV and fully reclined positions as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		 LOCKING MECHANISM
4	4. The seating unit defined in claim 1, wherein the seat rises in moving from the TV position to the fully reclined position.	The Living Style Barcalounger seat rises in moving from the TV position to the fully reclined position by approximately 1.75 inches as seen in the increase in distance between the bottoms of the arms of the chair (which are affixed to the seat) and the floor.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		INTERMEDIATE TV  FULLY RECLINED 
7	7. The seating unit defined in claim 1, wherein the power actuating unit includes opposed first and second ends, and wherein the first end of the power actuating unit moves forwardly as the seating unit moves from the upright position to the TV position, and wherein the second end of the power actuating unit moves rearwardly when the seating unit moves from the TV position to the fully reclined position.	The Living Style Barcalounger power actuating unit includes opposed first and second ends wherein the first end of the power actuating unit moves forwardly as the seating unit moves from the upright position to the TV position, and wherein the second end of the power actuating unit moves rearwardly when the seating unit moves from the TV position to the fully reclined position. As shown below, the power actuating unit includes first and second opposed ends. The chair below is in the upright position.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		 When the chair moves from the upright to intermediate TV position, the first end moves forwardly as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		 When the chair moves from the intermediate TV position to the fully reclined position, the second end moves rearwardly as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		
8	8. The seating unit defined in claim 7, wherein the upper swing link is pivotally attached with the backrest.	The Living Style Barcalounger upper swing link is pivotally attached to the backrest as shown below. The upper swing link is pivotally connected to a coupling link that is pivotally connected to the backpost, which attaches to the backrest.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
		 The photograph shows a mechanical assembly, likely a rocker mechanism for a chair. It features a black metal frame with various links and joints. Three labels with blue arrows point to specific components: 'BACKPOST' points to a vertical post on the left; 'COUPLING LINK' points to a horizontal link in the center; and 'UPPER SWING LINK' points to a link on the right. The mechanism is set against a red wall and a wooden baseboard.
9	9. The seating unit defined in claim 7, wherein the power actuating unit includes a motor and an extendable member at the first and second ends.	The Living Style Barcalounger power actuating unit includes a motor and an extendable member at the first and second ends as shown below.

Claim	U.S. Patent No. 8,016,348	Representative Rocker with Representative Rocker Mechanism
