Re: *Certain Mobile Electronic Devices and Components Thereof*

Dear Secretary Barton:

Pursuant to Commission Rule 201.6, Complainants trinamiX Sensing LLC and trinamiX GmbH (collectively, "Complainants" or "trinamiX") respectfully request confidential treatment of certain confidential business information contained in Exhibits 25C, 26C, 27C, 28C, 29C, 30C, 31C, 34C, 37C, 38C, 39C, 40C, 41C, 42C, 43C, 44C, and 46C to the Verified Complaint.

The information for which Complainants seek confidential treatment consists of proprietary commercial information, including detailed technical documents describing the operation of trinamiX's products and financial records regarding trinamiX's business as well as confidential technical information of third parties furnished to trinamiX subject to restrictions on further distribution.

The proprietary information described herein qualifies as confidential business information under Commission Rule 201.6 because substantially identical information is not available to the public, because the disclosure of this information would cause substantial competitive harm to Complainants, and because the disclosure of this information would likely impede the Commission's efforts and ability to obtain similar information in the future.

Thank you for your attention. Please contact me with any questions regarding this request for confidential treatment.

Respectfully submitted,

/s/ S. Alex Lasher

CERTIFICATION

I, S. Alex Lasher, counsel for Complainants trinamiX Sensing LLC and trinamiX GmbH
(collectively, “trinamiX” or “Complainants”), declare as follows:

1. I am duly authorized by Complainants to execute this certification.
2. I have reviewed confidential Exhibits 25C, 26C, 27C, 28C, 29C, 30C, 31C, 34C, 37C, 38C, 39C, 40C, 41C, 42C, 43C, 44C, and 46C to Complainants’ Verified Complaint, for which Complainants seek confidential treatment.
3. Confidential Exhibits 25C-30C are confidential claim charts showing how exemplary Complainants’ domestic industry products practice exemplary claims of the Asserted Patents. These charts contain confidential commercial and technical information about Complainants’ domestic industry products, which is not available for public dissemination. Disclosure of this proprietary information to the public would cause substantial harm to Complainants and their competitive position. Disclosure of this information also would impair the Commission’s ability to obtain information necessary to perform its statutory function.
4. Confidential Exhibit 31C is a confidential declaration concerning Complainants’ domestic investments in plant, equipment, labor, and capital related to domestic articles protected by the Asserted Patents. Disclosure of this proprietary information to the public would cause substantial harm to Complainants and their competitive position. Disclosure of this information also would impair the Commission’s ability to obtain information necessary to perform its statutory function.
5. Confidential Exhibits 34C, 37C, 38C, 39C, 40C, 41C, 42C, 43C, 44C, and 46C are confidential technical documents concerning Complainants’ face authentication systems and the components thereof, including internal system

requirement specifications, product documentation, and/or third-party technical materials obtained subject to restrictions on further distribution. Disclosure of this proprietary information to the public would cause substantial harm to Complainants and their competitive position, and/or to the third parties whose information those exhibits contain. Disclosure of this information also would impair the Commission's ability to obtain information necessary to perform its statutory function.

6. To the best of my knowledge, information, and belief, founded after a reasonable inquiry, substantially identical information to that contained in the confidential exhibits is not available to the public.

I declare under penalty of perjury that the foregoing is true and correct.

Executed this 3rd day of September, 2026 in Washington, D.C.
