Set up Face ID on iPhone

Use Face ID (on [supported models](#)) to securely and conveniently unlock iPhone, authorize purchases and payments, and sign in to many third-party apps by simply glancing at your iPhone. Face ID data is encrypted, isn't saved to iCloud, and doesn't leave your iPhone.

To use Face ID, you must also set a passcode on your iPhone.

Set up Face ID or add an alternate appearance

- If you didn't set up Face ID when you first set up your iPhone, go to Settings  > Face ID & Passcode > Set up Face ID, then follow the onscreen instructions.
- To set up an additional appearance for Face ID to recognize, go to Settings > Face ID & Passcode > Set Up an Alternate Appearance, then follow the onscreen instructions.

Choose when to use Face ID

You can use Face ID to unlock your iPhone, authorize payments, automatically fill in passwords, and open password-protected apps.

Go to Settings  > Face ID & Passcode, then turn on options below Use Face ID For.

Use Face ID while wearing a face mask

On iPhone 12 models or later, you can use Face ID to unlock your phone while you wear a face mask (or other covering that blocks your mouth and nose).

When you turn on Face ID with a Mask, Face ID analyzes the unique characteristics around your eyes, and it works with all of the Face ID options you turn on in Settings  > Face ID & Passcode.

Note: Face ID is most accurate when it's set up for full-face recognition only.

Go to Settings > Face ID & Passcode, then do any of the following:

- *Allow Face ID to work while you wear a face mask:* Turn on Face ID with a Mask, then follow the onscreen instructions.

Important: If you usually wear glasses, you can improve the accuracy of Face ID by wearing a pair of transparent glasses (not sunglasses) when you turn on Face ID with a Mask.

- *Add a pair of transparent glasses (not sunglasses) to your appearance:* Tap Add Glasses, then follow the onscreen instructions.
- *Don't allow Face ID to work while you wear a face mask:* Turn off Face ID with a Mask.

Alternatively, you can use Apple Watch with all models of iPhone that support Face ID to unlock iPhone while you wear a face mask. See [Unlock iPhone with Apple Watch](#).

Temporarily disable Face ID

You can temporarily prevent Face ID from unlocking your iPhone.

1. Press and hold the side button and either volume button for 2 seconds.
2. After the sliders appear, press the side button to immediately lock iPhone.

iPhone locks automatically if you don't touch the screen for a minute or so.

The next time you unlock iPhone with your passcode, Face ID is enabled again.

Turn off Face ID

1. Go to Settings  > Face ID & Passcode.
2. Do one of the following:
 - *Turn off Face ID for specific items only:* Turn off one or more of the options, such as Password AutoFill.
 - *Turn off Face ID for face masks:* Turn off Face ID with a Mask.

- *Turn off Face ID:* Tap Reset Face ID.

If your device is lost or stolen, you can prevent Face ID from being used to unlock your device with Find My iPhone Lost Mode. (See [Locate a device in Find My.](#))

Set up Face ID on iPad

Use Face ID (on [supported models](#)) to securely and conveniently unlock iPad, authorize purchases and payments, and sign in to many third-party apps by simply glancing at your iPad. Face ID data is encrypted, isn't saved to iCloud, and doesn't leave your iPad.

To use Face ID, you must also set a passcode on your iPad.

Set up Face ID or add an alternate appearance

- If you didn't set up Face ID when you first set up your iPad, go to Settings  > Face ID & Passcode > Set up Face ID, then follow the onscreen instructions.
- To set up an additional appearance for Face ID to recognize, go to Settings > Face ID & Passcode > Set Up an Alternate Appearance, then follow the onscreen instructions.

Choose when to use Face ID

You can use Face ID to unlock your iPad, authorize payments, automatically fill in passwords, and open password-protected apps.

Go to Settings  > Face ID & Passcode, then turn on options below Use Face ID For.

Temporarily disable Face ID

You can temporarily prevent Face ID from unlocking your iPad.

1. Press and hold the top button and either volume button for 2 seconds.
2. After the slider appears, tap Cancel to immediately lock iPad.

iPad locks automatically if you don't touch the screen for a minute or so.

The next time you unlock iPad with your passcode, Face ID is enabled again.

Turn off Face ID

1. Go to Settings  > Face ID & Passcode.
2. Do one of the following:
 - *Turn off Face ID for specific items only:* Turn off one or more of the options, such as Password AutoFill.
 - *Turn off Face ID:* Tap Reset Face ID.

If your device is lost or stolen, you can prevent Face ID from being used to unlock your device. See [Mark a device as lost in Find My](#).

Use Face ID on your iPhone or iPad Pro

Face ID lets you securely unlock your iPhone or iPad, authenticate purchases, sign in to apps, and more — all with just a glance.

[Set up Face ID](#) ✓

[Make purchases with Face ID](#) ✓

[Sign in with Face ID](#) ✓

Set up Face ID

1. In Settings, tap Face ID & Passcode. If asked, enter your passcode. If you didn't [set a passcode](#), you'll be asked to create one to use as an alternate way to verify your identity.
2. Tap Set Up Face ID.
3. Hold your device in portrait orientation, position your face in front of your device, then tap Get Started.
4. Position your face inside the frame and gently move your head to complete the circle. If you're unable to move your head, tap Accessibility Options.
5. When you finish the first Face ID scan, tap Continue.
6. Gently move your head to complete the circle for a second time.
7. Tap Done.

To choose features that you want to use Face ID with or reset Face ID, go to Settings, then tap Face ID & Passcode.

You can also [use Face ID with face masks](#) if you use iPhone 12 or later with iOS 15.4 and later. Face ID works best when your iPhone or iPad is approximately 10–20 inches from your face.

[Need help with Face ID?](#) [Learn which iPhone and iPad models support Face ID.](#)

You can't use Face ID in landscape mode with Face ID with a Mask turned on.

Use Face ID to make purchases

You can use Face ID to authenticate purchases with Apple Pay and in the iTunes Store, App Store, and Book Store in Apple Books.

Use Face ID with Apple Pay on your iPhone

To make a purchase in a store:

1. Make sure that [Apple Pay is set up](#) and turned on in Settings, then tap Face ID & Passcode.
2. To use your default card, double-click the side button. To use a different card, double-click the side button, tap your default card, then choose another card.

3. Glance at your iPhone to authenticate with Face ID. If you're wearing a face mask that covers your mouth and nose but Face ID with a mask isn't set up, tap Pay with Passcode and enter your passcode instead.
4. Hold the top of your iPhone near the contactless reader.
5. Wait for Done and a checkmark to display.

To make a purchase within an app or on a website in Safari:

1. Tap the Buy with Apple Pay button or choose Apple Pay as the payment method. Confirm your payment information. To choose a different card to pay with, tap the Next button > next to your card.
2. Double-click the side button, then glance at your iPhone or iPad.
3. Wait for Done and a checkmark to display.

Use Face ID in the iTunes Store, App Store, and Book Store in Apple Books

To use Face ID to purchase content from the iTunes Store, App Store, and Book Store, go to Settings, then tap Face ID & Passcode and make sure that iTunes & App Store is turned on. Then follow these steps:

1. Open the iTunes Store, App Store, or Book Store, then tap something that you want to buy.
2. When asked to pay, double-click the side button, then glance at your iPhone or iPad.
3. Wait for Done and a checkmark to display.

You might be asked to enter your Apple Account password for the first purchase you make in the iTunes Store, App Store, or Book Store.

Sign in to apps or other websites with Face ID

You can use Face ID to sign in to certain apps and autofill user names and passwords for websites in Safari.

To see and control which apps use Face ID to sign in, go to Settings, then tap Face ID & Passcode and tap Other Apps.

To use Face ID to autofill saved user names and passwords for websites in Safari, go to Settings, then tap Face ID & Passcode and turn on Password AutoFill.

If you're using an app that supports Face ID but aren't asked to use Face ID to sign in, then you might need to manually sign in to the app first.
