

**EXHIBIT 30**  
**(Public Version)**

**Ex. 30C – Domestic Industry Claim Chart**  
**U.S. Patent No. 12,332,352 (“the ’352 patent”)**

trinamiX GmbH (“trinamiX”) hereby identifies evidence demonstrating the following trinamiX products practice the ’352 Patent: all trinamiX products that include trinamiX Face Authentication, including but not limited to e.g., the trinamiX Face Authentication software libraries and SDK, ET-90 demonstrator, Cockatiel demonstrator, and MPIC2.0 (collectively, the “Practicing ’352 Products”). These products are made by trinamiX, and are imported, sold for importation, and/or sold within the United States after importation by trinamiX. The chart below is based on evidence of representative products of the Practicing ’352 Products. Each of the following limitations is met literally, and, to the extent a limitation is not met literally, it is met under the doctrine of equivalents.

The trinamiX products identified in this chart are representative of all relevant trinamiX products containing relevant components practicing the patent. The same or similar analysis as discussed below apply to all relevant trinamiX products containing relevant components practicing the patent because, for example, the cameras, sensors, and software operate similarly within each device, and each corresponding device has the same or similar components, features, functions, and/or characteristics. This will further be confirmed through expert discovery.

| Claim 1                                                                       | Practicing ’352 Products                                                                                                                                                                                                                                                                    |
|-------------------------------------------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| [1pre] A detector for identifying at least one material property m comprising | <p>To the extent the preamble is limiting, the Practicing ’352 Products comprise a detector for identifying at least one material property m.</p> <p>For example, each of the Practicing ’352 Products comprises a detector to identify material properties during face authentication.</p> |
